BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES

55 May 6, 2014

Sachi A. Hamai
SACHI A. HAMAI
EXECUTIVE OFFICER

Dear Supervisors:

**AUTHORIZE THE DIRECTOR OF PUBLIC WORKS OR HER DESIGNEE TO
TERMINATE KEY DISPOSAL, INC.'S, NON-EXCLUSIVE COMMERCIAL
SOLID WASTE COLLECTION FRANCHISE AGREEMENT
FOR UNINCORPORATED AREAS OF THE COUNTY OF LOS ANGELES
(ALL SUPERVISORIAL DISTRICTS)
(3 VOTES)**

SUBJECT

Approve the termination of the Non-Exclusive Commercial Solid Waste Collection Franchise Agreement for the Unincorporated Areas of the County of Los Angeles with Key Disposal, Inc.; authorize the Director of Public Works or her designee to terminate the franchise agreement effective on the termination date determined by the Director of Public Works or her designee and to implement all necessary and appropriate actions to effectuate the termination all in accordance with the franchise agreement and the Los Angeles County Code.

IT IS RECOMMENDED THAT THE BOARD:

1. Find that the approval of the termination of the Non-Exclusive Commercial Solid Waste Collection Franchise Agreement for the Unincorporated Areas of the County of Los Angeles with Key Disposal, Inc., is within the scope of the Negative Declaration previously adopted by the Board.
2. Approve the termination of the Non-Exclusive Commercial Solid Waste Collection Franchise Agreement for the Unincorporated Areas of the County of Los Angeles with Key Disposal, Inc. (Contract No. 003074), for default under the franchise agreement.

3. Authorize the Director of Public Works or her designee to terminate the Non-Exclusive Commercial Solid Waste Collection Franchise Agreement for the Unincorporated Areas of the County of Los Angeles with Key Disposal, Inc., effective on the termination date determined by the Director of Public Works or her designee and to implement all necessary and appropriate actions to effectuate such termination, all in accordance with the terms of the franchise agreement and the Los Angeles County Code, as referenced.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

On December 17, 2013, the Board approved the findings, decision, and recommendation of the Contractor Hearing Board (CHB) to debar Key Disposal, Inc. (Key), and its principals, Mr. John Katangian and Mr. Dan Katangian, for a period of five years from bidding on, being awarded, and/or performing work on any contracts for the County of Los Angeles.

In the same action, the Board instructed County departments that may have existing contracts with Key to consider the Board's debarment determination and evaluate whether to make a further recommendation to the Board that any such existing contracts be terminated consistent with the terms of such contract, as provided for in Section 2.202.040G of the Los Angeles County Code. The Board further authorized the County departments to proceed with any steps that may be required under the contracts to initiate the process of terminating such contracts.

The Department of Public Works has complied with the Board's debarment determination and instructions, as set forth above, with respect to one existing contract it administers on behalf of the County with Key, the Non-Exclusive Commercial Solid Waste Collection Franchise Agreement for the Unincorporated Areas of the County of Los Angeles.

The purpose of this action is to recommend that the Board approve the termination of the franchise agreement with Key and to authorize the Director of Public Works or her designee to terminate the franchise agreement effective on the termination date and to implement all necessary and appropriate actions to effectuate such termination, consistent with the terms of the franchise agreement and the Los Angeles County Code.

Implementation of Strategic Plan Goals

The recommended action to authorize the Director or her designee to terminate the franchise agreement is consistent with the Countywide Strategic Plan, which directs the provisions of Operational Effectiveness (Goal 1) and Fiscal Sustainability (Goal 2), which supports shared values of accountability, integrity, and professionalism, efficient and effective service delivery, and envisions the County as the premier organization for those working in the public's interest with a pledge to sustain essential County services through proactive and prudent fiscal policies and stewardship.

FISCAL IMPACT/FINANCING

There will be no impact to the County General Fund.

Revenues from this franchise agreement are budgeted in the Fiscal Year 2013-14 Solid Waste Management Fund Budget. Although the franchise agreement with Key is being terminated, there will be no impact to revenues as commercial trash collection services are provided under a

nonexclusive franchise agreement. Customers located in unincorporated County areas will be provided advanced notification and transitioned to new commercial waste haulers from the current list of authorized haulers.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Background

Title 20 – Utilities, of the Los Angeles County Code, Section 20.70.020, authorizes the Board to award nonexclusive, partially exclusive, or wholly exclusive franchises for certain solid waste handling services for any given geographic area of the unincorporated territory of the County upon a finding that the public health, safety, and welfare require the award of such a franchise.

On April 10, 2012, the Board adopted the Negative Declaration for the Non-Exclusive Commercial Franchise System and approved the action to award nonexclusive commercial franchise agreements to qualified waste collectors to provide solid waste collection services to businesses, industrial establishments, and multifamily property owners for all unincorporated areas of Los Angeles County. This action further authorized the Director or her designee to execute individual franchise agreements; to approve and execute amendments to incorporate necessary changes to the terms and conditions relating to the franchisee service performance requirements, specifications, and enforcement; and to suspend work if, in the opinion of the Director or her designee, it was in the best interest of the County of Los Angeles to do so.

Prior to the implementation of the Non-Exclusive Commercial Franchise System, commercial solid waste collection services were provided through an open-market system without uniform hauler accountability for customer service, quality, or efficiency of solid waste collection services. With commencement of the Non-Exclusive Commercial Franchise System, effective July 1, 2012, permitted waste haulers who provide service or plan to provide bins or dumpsters and roll-off services to properties in the unincorporated County areas are required to submit all documents and forms specified in franchise agreement's Request for Statement of Qualifications and sign the franchise agreement with Public Works.

On June 7, 2012, Public Works executed the franchise agreement with Key (Contract No. 003074), with service commencing on July 1, 2012, with a termination date of June 30, 2019. Key currently invoices for just under 40 accounts with an average franchise fee of \$1,641 monthly. Service locations range across the unincorporated areas of Los Angeles County, with the majority of multifamily residences and commercial businesses concentrated within the Supervisorial Districts 1, 2, and 4.

On June 18, 2013, the Board approved the Internal Services Department's (ISD) recommendation to terminate the County's Facility Ancillary Services Master Agreement (FASMA No. I104017) with Key, in whole, for default, pursuant to Section 8.43, "Termination for Default" of the agreement, for violating agreement provisions, including but not limited to, Sections 3.0, "Work" and 8.5, "Compliance with Applicable Laws."

As noted above, on December 17, 2013, the Board adopted the CHB's recommendation to debar Key and its principals for a period of five years. A copy of the CHB's recommendation is enclosed (Enclosure A).

Contractual Basis for Termination of the Franchise Agreement

The franchise agreement (Section 16.B.3.7) gives the Director or her designee the right to terminate the agreement upon the occurrence of a default, including a material violation of law with respect to any agreement with the County. It further gives the Director or her designee the right to terminate the franchise agreement for the franchisee's repeated violation of any law as determined by the Director or her designee, whether or not cured. A copy of the franchise agreement is enclosed (Enclosure B).

The record of the debarment determination, the CHB's recommendation, and the City of Los Angeles' public records show that Key repeatedly violated the law, including several violations of the city's Municipal Code, Section 66.32, et seq. requiring annual submission of complete waste hauler application renewal packages, gross receipt reporting, and payment of Assembly Bill 939 fees (authorized by the State of California's Integrated Waste Management Act of 1989). Key also resisted required city audits and failed to pay city business taxes for a period of two years. Key has made no attempt to cure its violations.

As Section 2.202.040G of the Los Angeles County Code authorizes the Board to terminate, in its discretion, any and all existing contracts of a debarred contractor, no additional hearing has been held prior to this recommendation to terminate the franchise agreement. In addition, Key and its principals were provided notice of ISD's intent to initiate a debarment action against Key, and two separate debarment hearings were publicly noticed, scheduled, and conducted, the first on July 3, 2013, and the second on September 12, 2013. The termination of the franchise agreement is based on the County's debarment of Key and upon the same facts (i.e., Key's repeated violation of law) as those presented by ISD during the debarment proceedings.

The franchise agreement (Section 16.B.3.) gives the Director or her designee the right to choose a termination date when public health and safety so require upon the occurrence of a default by the franchisee. Accordingly, delegation of authority to the Director or her designee to terminate the franchise agreement effective upon a date chosen by the Director or her designee is an appropriate action considering public health and safety, including the continuous and uninterrupted collection of solid waste and disposal of putrescible garbage. Accordingly, the Director or her designee intends to give Key's customers and other commercial haulers notice of the termination of Key's franchise agreement.

Termination of the commercial franchise agreement with Key will ensure that the County only contracts with responsible contractors who comply with the terms and conditions of their County contracts and with any relevant Federal, State, and local laws.

On March 17, 2014, Public Works sent written notification to Key of its recommendation to the Board to approve termination of the franchise agreement and to authorize the Director or her designee to terminate the franchise agreement effective on the termination date determined by the Director or her designee.

ENVIRONMENTAL DOCUMENTATION

On April 10, 2012, the Board adopted a Negative Declaration for Non-Exclusive Commercial Solid Waste Collection Franchise System. The study showed that there was no substantial evidence that the franchise agreement would have a significant effect on the environment. The California

Department of Fish and Game (Fish and Game) determined that for purposes of the assessment of the California Environmental Quality Act filing fees, Section 711.4(c) of the Fish and Game Code, the franchise agreement had no potential effect on fish, wildlife, and habitats. Additionally, the study showed that the proposed franchise agreement could not have a significant effect on environmental factors, such as but not limited to, public services, utilities/service systems, air quality, transportation/traffic, or population/housing.

Our recommended action to delegate authority to the Director or her designee to terminate Key's franchise agreement will have no significant impact upon the environment as this action is within the scope of the project in the previously adopted Negative Declaration. During the transitional period, Key's customers will have 45 days following notification to contact and arrange for new waste hauling services with the 46 other waste haulers that were reviewed by the Board under the Negative Declaration. Public Works will contact the affected customers and offer assistance where necessary to ensure that there will be a seamless transition to new services and no interruption in trash collection services.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

In order to ensure that termination of Key's franchise agreement will not have a negative impact on current services, Public Works will notify all Key's customers of the termination action and implement a customer transition plan. Specifically, prior to the termination date, Public Works will provide notice to Key's customers and include a list of franchised haulers to ensure that the customers do not experience a break in waste hauling service. Since trash collection for businesses in unincorporated County areas is a nonexclusive franchise, businesses are free to hire from the list. There will be no interruption of waste hauling services to unincorporated County customers.

CONCLUSION

Due to the foregoing, and to ensure that the County contracts only with responsible contractors who comply with all relevant laws, as well as the terms and conditions of their contracts, Public Works respectfully requests that the Board adopt the proposed findings, decision, and recommendations necessary to approve termination of the franchise agreement with Key and delegate authority to the Director or her designee to terminate the franchise agreement effective on the termination date as determined by the Director or her designee, and to implement all necessary and appropriate actions to effectuate the termination of Key's franchise agreement.

Dear Supervisors:

**DEBARMENT OF KEY DISPOSAL, INC.,
JOHN KATANGIAN, DAN KATANGIAN AND SHELLINE KATANGIAN
ALL DISTRICTS
(3-VOTES)**

SUBJECT

Request for Board approval to adopt the proposed findings, decision, and recommendations of the Contractor Hearing Board to debar Key Disposal, Inc. and its principals, John Katangian and Dan Katangian, and Key's Project Manager/Office Manager, Shelline Katangian, for a period of five years from bidding on, being awarded, and/or performing work on any contracts for the County of Los Angeles from the date of the Board's approval as a consequence of what the Contractor Hearing Board found to be serious contract violations.

IT IS RECOMMENDED THAT THE BOARD:

1. Adopt the proposed findings, decision, and recommendations of the Contractor Hearing Board (CHB) to debar Key Disposal, Inc. (Key) and its principals, John Katangian and Dan Katangian, and Key's Project Manager/Office Manager, Shelline Katangian, for a period of five years from the date of the Board's approval of this action, from bidding on, being awarded, and subject to Recommendation Two below, from performing work on any existing contracts for the County of Los Angeles (County).
2. With respect to any existing contracts that Key, John Katangian, Dan Katangian, and Shelline Katangian may have with the County, instruct County departments

to consider the Board's debarment determination as reflected in Recommendation One above, and to evaluate whether to make a further recommendation to the Board that any such existing contracts be terminated consistent with the terms of such contracts, as provided for in Title 2, Chapter 2.202, Section 202.040G of the Los Angeles County Code; and further, authorize the County departments to proceed with any steps that may be required under the contracts to initiate the process of terminating such contracts.

3. Instruct the Executive Officer to send notice to Key and its principals, John Katangian and Dan Katangian, and Key's Project Manager/Office Manager, Shelline Katangian, advising of the debarment action taken by the Board.
4. Instruct the Director of the Internal Services Department (ISD) to enter this determination to debar Key, John Katangian, Dan Katangian, and Shelline Katangian, into the County's Contract Database for a period of five years.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended debarment action against the contractor, Key and its principals, John Katangian and Dan Katangian, and Key's Project Manager/Office Manager, Shelline Katangian is to ensure the County contracts only with responsible contractors who comply with the terms and conditions of their County contracts, and with any relevant Federal, State, and local laws.

Implementation of Strategic Plan Goals

The recommended actions are consistent with the County's Vision and Strategic Plan Goal One which supports shared values of accountability, integrity, and professionalism, efficient and effective service delivery, and envisions the County as the premier organization for those working in the public's interest with a pledge to sustain essential County services through proactive and prudent fiscal policies and stewardship.

FISCAL IMPACT/FINANCING

Not applicable.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Contractor Non-Responsibility and Debarment Ordinance

The Contractor Non-Responsibility and Debarment Ordinance, County Code Chapter 2.202, provides the County with the authority to terminate contracts and debar contractors when the County finds, in its discretion, that the contractor has engaged in certain acts, including any of the following:

- Violated a term of a contract with the County or a non-profit corporation created by the County;
- Committed an act or omission which negatively reflects on the contractor's quality, fitness, or capacity to perform a contract with the County, any other public entity, or a non-profit corporation created by the County, or engaged in a pattern or practice which negatively reflects on the same; or
- Committed an act or omission which indicates a lack of business integrity or business honesty.

In considering debarment, the County may consider the seriousness and extent of the contractor's acts, omissions, patterns, or practices and any relevant mitigating factors.

Contractor Hearing Board Responsibilities

County Code Chapter 2.202, the Contractor Non-Responsibility and Debarment Ordinance, established the CHB to provide an independent review of the contracting department's recommendation to debar a contractor. The regular membership of the CHB is composed of a representative from the Chief Executive Office (CEO), ISD and the Department of Public Works (DPW). In addition, the CHB includes the departments of Health Services (DHS), Parks and Recreation (Parks) and Public Social Services as alternate member departments. In the event the debarment action is initiated by CEO, ISD, or DPW, the CHB member from the department bringing the debarment action will recuse himself/herself from any participation in the hearing.

In this particular debarment proceeding, ISD brought the action. DPW also did not sit on the CHB, given it has a current County contract with Key, Contract No. 003074 - Non-Exclusive Commercial Solid Waste Collection Franchise Agreement. Therefore, the CHB representatives from Parks and DHS participated in the hearing and deliberations, and voted in this debarment proceeding along with CEO. The DHS representative was elected by the participating members to serve as the acting chair for the CHB in these proceedings.

Background

In June 2013, ISD requested the CHB be convened to initiate debarment proceedings against Key and its principals, John Katangian and Dan Katangian, and Key's Project Manager/Office Manager, Shelline Katangian for:

- Violating a term of a contract with the County or a nonprofit corporation created by the County.
- Committing an act or omission which negatively reflects on the contractor's quality, fitness, or capacity to perform a contract with the County, any other

public entity, or a nonprofit corporation created by the County or engaging in a pattern or practice which negatively reflects on same; and

- Committing an act or offense which indicated a lack of business integrity or business honesty.

July 3, 2013 Debarment Hearing

On June 18, 2013, ISD sent proper notice via a certified first class letter to Key and its principals, John Katangian, President of Key; Dan Katangian, Vice President of Key; and Key's Project Manager/Office Manager, Shelline Katangian, notifying them of ISD's intent to initiate debarment actions against Key and these individuals, with a recommended debarment period of five years, at a hearing scheduled for July 3, 2013 at 9:30 a.m. in the Kenneth Hahn Hall of Administration, Room 140A. Attachment I is a copy of this notice. Included in this correspondence was notice to the parties that they must confirm in writing to ISD by June 25, 2013, of their intent to attend the debarment hearing and oppose the debarment recommendation.

Key and John, Dan and Shelline Katangian, did not confirm their attendance for the July 3, 2013 debarment hearing. The hearing was publicly noticed, scheduled, and conducted on July 3, 2013, in the Kenneth Hahn Hall of Administration, Room 140A. Key and John, Dan and Shelline Katangian, also did not appear at the July 3, 2013 debarment hearing and did not submit any documentation or a list of prospective witnesses to rebut any evidence presented at the debarment proceedings. ISD thus proceeded in their absence and placed an uncontested debarment recommendation before the CHB. At that hearing, the CHB voted to recommend a five year contractor debarment of Key and John, Dan and Shelline Katangian. Attachment II is a copy of the agenda for the July 3, 2013 hearing, and the exhibits that were entered into the record that day.

September 12, 2013 Debarment Hearing

On August 13, 2013, the CHB transmitted to ISD, Key and John, Dan and Shelline Katangian, notice of and a copy of the CHB's Tentative Proposed Decision and Recommendation to debar Key and these individuals for a period of five years. Attachment III is the Notice and Tentative Proposed Decision and Recommendation. This Notice also set a further hearing on August 29, 2013 to hear written objections from any party to the CHB's Tentative Proposed Decision and Recommendation. Shelline Katangian served written objections on all parties on August 22, 2013, asserting that she is only the Office Manager for Key and is not a principal. Attachment IV is a copy of her written objections. No other parties provided written objections.

The August 29, 2013 hearing was cancelled and rescheduled to September 12, 2013. The hearing was publicly noticed, scheduled, and conducted on September 12, 2013, in the Chief Information Office at the Los Angeles World Trade Center, Grand Conference

Room. Attachment V is a copy of the Notice for this Hearing.

ISD representatives, Shelline Katangian, John Katangian, and lawyers from County Counsel attended the hearing before the CHB. Shelline Katangian and John Katangian provided testimony that Shelline Katangian is the Office Manager for Key and is not a principal. ISD then presented additional evidence regarding Shelline Katangian's role and responsibilities with Key. All parties then agreed to allow this testimony and additional evidence to be considered by the CHB. The CHB thereafter considered the testimony and additional evidence provided by the parties, deliberated, and voted to not change its initial recommendation of five years of debarment for Key and John, Dan and Shelline Katangian. Attachment VI is copy of the September 12, 2013 agenda and a set of the exhibits that were entered into the record that day.

All proceedings were audio recorded and the recordings are available upon request, as well as all documents entered into the record as exhibits during the hearing. A list of CHB members, ISD representatives, Key representatives, and participating lawyers from County Counsel who were at the hearings on July 3, 2013 and September 12, 2013, can be found at Attachment VII.

SUMMARY OF EVIDENCE AND ARGUMENT

An ISD representative and County Counsel for ISD presented evidence at both hearings in the form of testimony, correspondence and supporting documentation demonstrating that Key and John, Dan and Shelline Katangian, breached the terms of the County agreement.

Pertinent Facts and Evidence

On March 3, 2009, the Board approved the Facility Ancillary Services Master Agreement (FASMA) with qualified vendors to provide services to ISD and other County departments, with Key as one of the recommended vendors. Key identified John Katangian as the President of Key and Dan Katangian as the Vice President in the FASMA. Key identified Shelline Katangian as the Project Manager for Key on the FASMA, as well as the Office Manager. Per Section 7.1.2 of the FASMA, the Project Manager is responsible for the day to day activities related to the performance of work under the FASMA. Key also designated all three individuals, including Shelline Katangian, as authorized officials of Key who could execute documents on behalf of, and bind Key. Shelline Katangian had check-signing authority for Key, executed documents on behalf of Key, and is identified on the Statement of Information filed with the State of California Secretary of State as the agent for service of process for Key.

On February 21, 2012, ISD awarded a purchase order (PO) agreement to Key for waste hauling services under the firm's FASMA at sixty (60) County owned/operated locations or court facilities for the period of February 21, 2012 through March 31, 2014. In mid-2012, nine locations were deleted from the PO agreement when services were no

longer needed at those locations. Of the remaining fifty one (51) waste hauling locations, twenty three (23) were located within the City of Los Angeles (City) and the remaining twenty eight (28) were in other areas within the County of Los Angeles.

On March 13, 2013, the City of Los Angeles' Department of Public Works, Bureau of Sanitation issued Board Report No. 2, titled "Request for the Revocation of Key's Solid Waste Hauling Permit (Number 09-076) for Failure to Comply with the Terms and Conditions of its Permit and with the Requirements of LAMC 66.32, ET SEQ.". The City report details a series of non-compliance instances by Key over the course of several years. Specifically, Key did not properly comply with City's municipal code requirements, including annual submission of complete waste hauler application renewal packages, gross receipt reporting and payment of fees. Key also resisted cooperating with required City audits. In addition, Key didn't pay City business taxes for the period 2008-2010. Business taxes were paid by Key for 2011, but not for any period after that time.

A City audit in 2011 covering Key's operations from January 1, 2006 through December 31, 2007, determined that Key under reported gross receipts and therefore underpaid fees to the City. Key entered into a monthly payment plan with the City in June 2011 to pay outstanding audit fees of \$236,616.45. Key made sporadic monthly payments and some were returned for insufficient funds and a balance remains from this audit.

A subsequent City audit issued in January 2012 for the period January 1, 2008 through December 2010 indicted that Key had under reported their gross receipts and owed the City an additional \$441,175.51. The City made numerous attempts to collect the outstanding audit amounts from Key. However, Key did not honor the payment plan and continued its practice of making late payments, incomplete payments and payments returned for insufficient funds. Key owes outstanding audit balances and fees owed to the City in the amount of \$668,597.

With issuance of the City report, Key's solid waste hauler permit was revoked by the City of Los Angeles' Board of Public Works. Key was given thirty (30) days to operate within the City during a post-revocation transition period. During this transition period, Key was required to notify their customers with waste hauling locations in the City that they should select alternative service providers.

On March 19, 2013, the City issued a Notice to permitted City waste haulers regarding the revocation of Key's Solid Waste Hauler Permit, Number 09-076 by the Board of Public Works, and the opportunity to assist in providing waste hauling services to Key's former City customers by soliciting their business. During the thirty (30) day post revocation period that commenced March 13, 2013, Key gave no advance notice to the County that it could not perform contractually required waste hauling services in the City.

On April 4, 2013, the City notified ISD that Key's waste hauling services permit with the City was being revoked effective April 13, 2013, and that Key would no longer be allowed to conduct services within the City limits. This was the first time that ISD was made aware that Key's waste hauling permit had been revoked by the City.

On April 8, 2013, ISD sent written notification to Key of its intent to terminate Key's FASMA #1104017 for default, upon Board approval, unless Key resolved the issues with the City within a five day period. The letter provided Key the opportunity to resolve the issues, and respond to ISD with information demonstrating that the issue had been resolved, by Friday, April 12, 2013.

On the evening of April 8, 2013, Shelline Katangian from Key responded to ISD's letter in an email stating that she did not believe that Key would have the matter with the City resolved by April 13, 2013. Ms. Katangian also indicated that she had a permitted hauler taking over Los Angeles (SVT Services, Inc) and that she was in the process of making SVT a FASMA contractor. Ms Katangian also inquired if that would hold the County over until SVT became a FASMA vendor and if the County could assign the contract to another waste hauler (SVT Services) that she was making arrangements with to take over the work. ISD subsequently discovered that Ms. Katangian was the President of SVT Services.

On April 9, 2013, ISD responded with a letter informing Key that (i) since the contractual agreement was with Key, the County would not approve the assignment of a contractor other than Key to provide contracted services, and (ii) it must cease to provide waste hauler services under its FASMA effective April 13, 2013. The letter further informed Key that the County would only pay for services rendered by Key up to and including April 12, 2013.

Waste hauling is a health and safety issue and any lapse in services can have significant public health ramifications. On April 9, 2013, ISD took action to ensure that waste hauling services were provided at the fifty one (51) locations previously serviced by Key in order to avoid interruptions or gaps in these critical services. ISD reviewed the most recent bids for these services and, within four days, awarded new PO agreements under existing FASMA's to transition the waste hauling services to the second lowest bidder for each of the affected locations. This resulted in an overall increase of \$33,558, or thirty two percent (32%) higher than Key's price. The costs will be absorbed by the affected County departments, including the Department of Public Social Services (15 sites), Department of Community and Senior Services (12 sites), the Department of Mental Health (5 sites), Department of Public Works (3 sites), and various other departments or court facilities (16 sites). In addition, significant ISD staff time was required to obtain new contractors for waste hauling at all fifty one (51) locations within that four (4) day period.

ISD also presented testimony that during the transition period prior to the April 13, 2013 termination of Key's agreement, someone at Key initiated removal of some of the waste

bins at several facilities. This required additional coordination on ISD's part with successor contractors to ensure replacement bins were available and there was no lapse in waste hauling services.

On June 5, 2013, ISD notified John Katangian at Key via email and first class certified mail that Key would be placed on the Los Angeles County Contractor Alert Reporting Database (CARD) as a result of meeting one of the CARD criteria. Specifically, Key was found to have "experienced financial, administrative, programmatic or legal issues that affect their ability to comply with County contract requirements". The notice advised Key that to avoid CARD placement, Key must respond by 5 p.m. on June 18, 2013 with information demonstrating that Key should not be placed in CARD. At 12:20 p.m. on June 18, 2013, Key responded to ISD via email, but the information was not sufficient to demonstrate why Key should not be placed in CARD. ISD advised Key via letter on June 26, 2013 that Key would be placed in CARD immediately, which ISD did.

On June 18, 2013, the Board approved the termination of FASMA #1104017 with Key, in whole, for default, pursuant to Section 8.43, "Termination for Default" of the agreement, for violating agreement provisions, including but not limited to, Sections 3.0, "Work" and 8.5, "Compliance with Applicable Laws".

ISD confirmed with the City that as of the morning of the debarment hearing on July 3, 2013, Key was still in noncompliance with the City's requirements and the \$668,597 owed to the City remained outstanding.

ISD also indicated that since Key's FASMA had been terminated, Shelline Kantagian, representing herself as President of SVT Services, had submitted an application from SVT Services for a new FASMA.

Argument

During the debarment hearing, ISD presented testimony and written documentation to show the following:

Key violated terms of the contract with the County.

FASMA Section 3.0 "Work", Sub-paragraph 3.1 states: "Pursuant to the provisions of this Master Agreement, the Contractor shall fully perform, complete and deliver on time, all tasks, deliverables, services and other work as set forth herein."

FASMA Section 8.5, "Compliance with Applicable Laws", Sub-paragraph 8.5.1 states "In performance of this Contract, Contractor shall comply with all applicable Federal, State and local laws, rules, regulations, ordinances, directives, guidelines, policies and procedures, and all provisions required thereby to be included in this Contract are hereby incorporated herein by reference."

The scope of the PO awarded to Key for waste hauling services under Key's FASMA initially covered sixty (60) locations for the period of February 21, 2012 through March 31, 2014. In mid-2012, nine locations were deleted from the PO agreement. Of the remaining fifty one (51) waste hauling locations, twenty three (23) were located within the City and the remaining twenty eight (28) in other areas within the County of Los Angeles. When the City revoked Key's waste hauling permit for failure to comply with the terms of its City permit, Key was no longer able to provide waste hauling services for any of these locations, including the twenty three (23) locations located within the County. Given Key's inability to provide the entirety of the contracted services for all fifty one (51) locations in the PO, Key was in violation of FASMA Section 3.0 "Work."

Further, Key was in violation of FASMA Section 8.5, "Compliance with Applicable Law", for failure to comply with City requirements for waste haulers, including those set forth in Section 66.32 of the City Code, and for failure to pay AB 939 (State of California's Integrated Waste Management Act of 1989) Compliance Fees. This was evidenced by the City's revocation of Key's waste hauling permit for noncompliance with the City's requirements.

Key and its principals and staff committed an act or omission which negatively reflected on the contractor's quality, fitness, or capacity to perform a contract with the County.

Over the course of several years, Key did not comply with City's municipal code requirements including annual submission of complete waste hauler application renewal packages, gross receipt reporting, payment of fees, and resisted cooperating in contractually required City audits. In addition, Key didn't pay City business taxes for the period 2008-2010. Business taxes were paid by Key for 2011 but for no periods after that time. City audits determined that Key under-reported gross receipts and therefore underpaid fees to the City for approximately four years. Based on Key's relationship with the City, these acts appear to be intentional and negatively reflect on Key's ability to perform a contract with the County. John and Dan Katangian are the President and Vice-President of Key, and Shelline Katangian is the Office Manager. Each knew or should have known, in their capacities with Key, that it was improper to under-report gross receipts, and fail to properly pay taxes or participate in required audits.

The City gave Key a thirty (30) day post revocation period that commenced March 13, 2013 in which to notify their customers of the revocation of their waste hauling permit in order for customers to make other arrangement for waste hauling for a smooth transition to compliant waste hauling firms. However, during this period, Key gave no advance notice to the County that it could not perform contractually required waste hauling services in the City. It was only through the courtesy notice from the City to ISD on April 4, 2013 that ISD became aware that Key's permit was revoked. Shelline Katangian, who was designated by Key to be the Project Manager on the County's FASMA, was contractually responsible for the day to day operations for the work performed under the FASMA. Ms. Katangian should have alerted the County

immediately that Key would no longer be able to provide waste hauling services for the County, so that the County could take proper steps to address the lost of service. She failed to do so.

ISD attempted to contact Key via phone and email but was unable to obtain any response until a letter was sent indicating that Key must cease to provide services April 13, 2013. Shelline Katangian responded to ISD via email, noting that City issues wouldn't be resolved and that she had another hauler, SVT Services, taking over sites in the City and that SVT Services was in the process of obtaining a FASMA. As the FASMA Project Director, Ms. Katangian should have been aware that pursuant to the FASMA provisions, she could not make arrangements for another entity to provide the services unless ISD provided prior written approval for subcontracting. ISD subsequently received a FASMA application from SVT Services indicating that Shelline Katangian, is President of SVT Services. She failed to mention to ISD initially, that she is the President of SVT Services.

Key's under-reporting of gross receipts, failure to properly and timely pay taxes, lack of notice to ISD, the attempt to subcontract with another vendor of which Ms. Katangian is President, and the fact that Key's Project Manager, Ms. Katangian, was attempting to obtain a FASMA for identical waste hauling services provided, further demonstrates that Key and the three (3) individuals associated with Key, committed multiple acts and omissions which negatively reflect on the contractor's quality, fitness, or capacity to perform a contract with the County.

In addition, Key's actions resulted in ISD initiating extraordinary efforts to replace the contracted services within a four day period in order to not create public health hazards at County facilities that not only serve County employees, but also service County constituents and patients. The change in contractors resulted in an increased and unanticipated annual cost to the County of \$33,558.

Key committed an act or offense which indicates a lack of business integrity or business honesty.

Key's actions and omissions, as well as their lack of responsiveness over the course of several years with the City show a pattern by Key and its principals of not taking responsibility for the firm's contractual commitments and actions. In addition, Key did not notify the County of the revocation of their City waste hauler permit and the firm's inability to provide waste hauling services at sites in the City. As of the date of the July 3, 2013 hearing, Key has not made the City whole and has not had any discussions with ISD regarding their actions.

The County only does business with "responsible contractors" (County Code section 2.202.010). The purpose of the ordinance is to promote integrity in the County's contracting process. A non-responsible contractor is one which has displayed a lack of

business ethics and business integrity, as demonstrated by Key and its principals and staff.

FINDINGS AND RECOMMENDED DECISION

After considering the evidence and arguments presented by ISD representatives, the CHB concluded that the following factors assisted them in reaching their decision for the debarment of Key and its principals, John Katangian and Dan Katangian, and Key's Project Manager/Office Manager, Shelline Katangian, for a period of five years:

➤ *The frequency of incidents and/or duration of the wrongdoing.*

The CHB found that there were ongoing acts and omissions in Key's contractual relationship with the City for several years, and as of the July 3, 2013 debarment proceedings, Key has not resolved its issues with the City. As of July 3, 2013, Key was still in noncompliance with the City's requirements and the \$668,597 owed to the City remained outstanding. Key's underreporting of gross receipts and/or tax issues date as far back as 2006.

➤ *Whether and to what extent a contractor planned, initiated, or carried out the wrongdoing.*

The CHB concluded that Key and its principals continued over the course of several years to commit acts and omissions that resulted in continuing noncompliance with Key's City contract. As a result, Key's permit was revoked by the City. To compound this problem, John, Dan and Shelline Katangian failed to provide immediate notice to the County so that the County could take proper steps to address the loss of service. Instead, Key offered up another vendor, STV Services, of which Shelline Katangian is the President.

➤ *The actual or potential harm or impact that results or may result from the wrongdoing.*

As a result of Key's inability to perform its entire County contract due to the revocation of the firm's City waste hauling permit, ISD had to obtain successor waste hauling contractors for fifty one (51) locations in the course of only four days. As a result, the County will incur \$33,558 in increased annual costs. In addition, significant ISD staff time was required to obtain new contractors for waste hauling at all fifty one (51) locations within that four day period.

ISD also presented testimony that during the transition period prior to the April 13, 2013 termination of Key's agreement, someone at Key initiated removal of some of the waste bins at several facilities. This required additional coordination on ISD's part with successor contractors to ensure replacement bins were available and there was no lapse in waste hauling services.

- *Whether a contractor has accepted responsibility for the wrongdoing, recognizes the seriousness of the misconduct that led to the cause for debarment, and has taken corrective action to cure the wrongdoing, including taking appropriate disciplinary actions against those responsible.*

With regards to the City, Key and its principals did not take any responsibility for Key's actions and did not correct the contractual noncompliance over the course of several years. Key gave ISD no advance notice of their waste hauler permit revocation and did not provide any response to ISD's notice of the debarment proceedings against Key.

- *Whether a contractor has cooperated fully with the involved public entities during the investigation and any court or administrative action.*

Key and its principals were uncooperative with the City although the City afforded Key with opportunities to correct their noncompliance. ISD also gave Key an opportunity to correct their noncompliance, but Key was not forthcoming in taking corrective action.

- *The positions held by the individuals involved in the wrongdoing.*

The CHB found that the wrongdoing was at the highest levels in this company. John Katangian is the President of Key; Dan Katangian is Vice-President of Key; and Shelline Katangian is the Project Manager on the FASMA, as well as the Office Manager of Key. While Ms. Katangian submitted written objections asserting that she was not a principal of Key, but a mere Office Manager, the CHB found her objections and testimony unpersuasive. She was indeed the Project Manager, who contractually under the FASMA, is responsible for the day-to-day activities for the work performed under the Contract. In addition, like John and Dan Katangian, she was identified in the FASMA as one of Key's Authorized Officials. Authorized Officials have authority to execute documents and bind Key under the FASMA. Ms. Katangian was executing documents and also signing checks on behalf of Key.

Therefore, by unanimous vote, the CHB recommends to your Board that Key Disposal, Inc. and John Katangian, President of Key; Dan Katangian, Vice President of Key; and Shelline Katangian, Key's Project Manager/Office Manager, be debarred. The CHB also recommends debarment for a period of five years.

In making these recommendations, the CHB considered the contractor's lack of business integrity and honesty, and the multiple acts which negatively reflect on the contractor's quality, fitness, or capacity to perform a contract with the County.

Contractor's Right to Object to the CHB Findings and Recommendations

As noted above, on August 13, 2013, Key and John Katangian, Dan Katangian, and Shelline Katangian were sent (via certified mail) a letter, with a copy of the draft report with the proposed findings, decision, and recommendation of the CHB. As indicated in the letter, the draft report was provided for Key and its principals to review, and to prepare and provide the County with any written objections to the proposed decision of the CHB for consideration.

Subsequently, Shelline Katangian submitted an objection via e-mail on August 22, 2013 at 3:50 p.m. The August 29, 2013 hearing was cancelled and continued to September 12, 2013 at 10:30 a.m. at the Chief Information Office, Grand Conference Room, at 350 S. Figueroa Street, Los Angeles, CA 90071. Her objections were heard and considered by the CHB on September 12, 2013, as noted above.

IMPACT ON CURRENT PROJECTS

Not applicable.

CONCLUSION

Due to the foregoing, and to ensure that the County contracts only with responsible contractors who comply with all relevant laws, as well as the terms and conditions of their contracts, the CHB respectfully requests that your Board adopt the proposed findings, decision and recommendations relating to Key, John Katangian, Dan Katangian, and Shelline Katangian.

Respectfully submitted,

RECITALS

OPEN MARKET COMPETITION. Historically, private waste haulers and not County have arranged to provide municipal solid waste management services in bins to commercial enterprises in the unincorporated territory of County. Private haulers and their commercial customers have competitively negotiated service charges in an open-market, *except* in Garbage Disposal Districts and residential franchise areas, where the haulers contract with County to provide solid waste management services.

FRANCHISE PURPOSE. Under this Agreement, private haulers will continue to arrange to provide solid waste management service in bins to commercial customers, subject to the terms of this Agreement. This Agreement will:

- increase hauler accountability for customer service,
- help implement the Source Reduction and Recycling Element of the County's Solid Waste Plan, including providing diversion programs, maintaining more accurate records and improving reporting, and specifically the establishment and enforcement of recycling programs for businesses and multifamily dwellings,
- provide efficient contract administration and enforcement by COUNTY staff, and
- provide bulky waste collection to curb illegal dumping .

SOLID WASTE PERMITS. Article XI, Section 7 of the California State Constitution authorizes COUNTY to protect the public health and safety by exercising its authority over police and sanitary matters. Historically, the COUNTY Department of Health Services issued permits to haulers for the hauling of solid waste with requirements to protect public health and safety, including frequency of collection and collection vehicle maintenance. It will continue to do so, and FRANCHISEE shall continue to obtain that permit and comply with all of its provisions.

SELF-HAUL OPTION. This Agreement does not require anyone to subscribe to franchise services from FRANCHISEE. Owners and occupants of premises may self-haul their solid waste. They may store solid waste generated on their premises in their own containers, and collect and transport it in their own vehicles for reuse, recycling, or disposal. Customers' obligations to pay FRANCHISEE service fees under this

Agreement does not arise because they own property, but because they generate refuse and do not exercise their right to self-haul.

FRANCHISE AUTHORIZATION. California Public Resources Code Section 40059 specifically authorizes COUNTY to prescribe the terms and conditions of aspects of solid waste management services, including:

- the nature, location, and level/extent of services.
- frequency of collection;
- means of collection and transportation;
- service charges and fees; and
- whether the services are to be provided by means of non-exclusive, partially exclusive, or wholly exclusive franchise, contract, license, permit, or otherwise.

County Code Chapter 20.70 authorizes the Director to require franchises in any part of the unincorporated territory of the County that is not served by a Garbage Disposal District.

COUNTY consulted with representatives of waste haulers in developing this Agreement. COUNTY and representatives of the private hauling industry met many times to discuss the scope of franchise services, service specifications, service standards, and other performance obligations and to address the industry's questions, comments, and concerns.

SECTION 1 – FRANCHISE GRANT

- A. Non-Exclusive Grant and Acceptance.** COUNTY grants to FRANCHISEE and FRANCHISEE accepts the non-exclusive right and privilege to provide franchise services with respect to solid waste discarded in bins and roll-off boxes and within the unincorporated areas of the COUNTY. In COUNTY'S sole discretion, COUNTY may also grant to other persons the same rights and privileges that it grants FRANCHISEE under this Agreement. COUNTY is not liable to FRANCHISEE for acts of anyone who provides solid waste management services without a permit or franchise required by law, and FRANCHISEE releases COUNTY from any liability in connection with any of those acts.

“franchise services” means all FRANCHISEE'S obligations under this Agreement to its customers and COUNTY.

“solid waste” means “solid waste” defined in California Public Resource Code Section 40191.

“bin” means any container for storage of solid waste that is picked up with front end

loading vehicles, such as those having a 1- to 8-yard capacity, commonly referred to as dumpsters.

“roll-off box” means any open-topped rectangular container for storage, collection, and transport of solid waste that are rolled on and off flatbed collection vehicles via winches or reeving cylinders (hooks), sometimes referred to as debris boxes.

B. Exclusions from Franchise. This grant excludes:

- (1) recyclables that any person donates or sells to someone other than FRANCHISEE.

“recyclables” means types of solid waste designated by COUNTY.

- (2) solid waste that any person self-hauls, such as shingles generated by roofers and yard waste by gardeners who:
- collect the solid waste in receptacles other than those provided by FRANCHISEE, and
 - transport the solid waste in that person’s own vehicles for disposal or processing.
- (3) solid waste is “self-hauled” if it meets *both* of the following two requirements:
- FRANCHISEE owns the property where it collects the solid waste, as evidenced by its name on the deed of the title for the property, and
 - FRANCHISEE does not charge anyone for those services, as proven to the County’s satisfaction
- (4) solid waste discarded at premises owned or controlled by COUNTY or any other person governed by the Board of Supervisors ;
- (5) solid waste discarded at premises owned or controlled by:
- the State of California;
 - any school district; or
 - any person that is not legally obligated to subscribe to franchise services.
- (6) solid waste discarded in carts at premises that receive franchise services under an exclusive franchise awarded by the COUNTY for cart service (such as an *Exclusive Franchise Agreement For Provision of Refuse, Recyclables, and Green Waste Automated Cart Services at Residential Premises and Certain Multifamily and Commercial Premises*), including residential, multifamily and commercial premises. However, FRANCHISEE must collect recyclables discarded in carts at customers’ premises under its Recycling and Waste Diversion Plan in its Request for Statement of Qualifications and Attachment No. 1.

“cart” means a wheeled container for storage of solid waste that is (semi) automatically picked up by mechanical arms on a side loading truck

- (7) solid waste discarded by anyone who is receiving solid waste management services from a solid waste enterprise (if any) that has the statutory right to continue to provide franchise services to that person under California Public Resource Code Section 49520 *et seq.*

C. Definition of Rights. FRANCHISEE acknowledges:

- (1) This Agreement does not grant FRANCHISEE any rights under Public Resource Code Section 49520.
- (2) FRANCHISEE does not have the right to make any claim under Public Resource Code Section 49520, but only under this Agreement.

Upon expiration or termination of this Agreement, FRANCHISEE shall cease providing franchise services even if the expiration or termination occurs before the end of the period described in Public Resource Code Section 49520. After expiration or termination of this Agreement, COUNTY may reprocore one or more agreements for solid waste management services with FRANCHISEE or other persons. Those agreements may be exclusive, partially exclusive, or wholly exclusive franchises, contracts, licenses, permits or otherwise, with or without competitive bidding.

D. Franchise Fee.

***"franchise fee"** means the franchise fee established from time to time and paid under COUNTY Code Chapter 20.70 and implementing ordinances or resolutions of the Board of Supervisors.*

In consideration for this franchise, FRANCHISEE shall be obligated to COUNTY beginning on the date of this agreement, and shall pay the franchise fee at the time and in the amount and manner established from time to time by County ordinance or resolution of the Board of Supervisors. FRANCHISEE shall not separately identify the franchise fee in correspondence with its customers, such as in customer subscription orders or service bills, unless the language is approved by COUNTY. All communication with customers regarding increased charges, including both written and oral communication, shall be approved by County.

FRANCHISEE shall pay the franchise fee with respect to *all* fees that it charges customers, including customers that subscribe to:

- (1) franchise services for bins (such as centrally-located green waste bins in a multifamily complex), and
- (2) non-franchise services for carts (such as individual carts for each dwelling within a multifamily complex)

unless FRANCHISEE pays franchise fees with respect to all or a part of those fees under County residential franchises.

E. Transfer. FRANCHISEE may transfer this Agreement, the franchise granted under it, or any rights or duties under it:

1. in whole or in part, whether voluntarily or involuntarily,

2. directly or indirectly (including through asset purchase, or merger with or acquisition of the FRANCHISEE), subject to the following exception.

FRANCHISEE may *not* make that transfer without the Director's prior written consent exercised in the Director's sole discretion, if the party to whom the FRANCHISEE makes the transfer (the transferee) does not qualify for any previously extended term of this agreement under Section 2. For example, if the existing FRANCHISEE (transferor) purchased alternative fueled vehicles and this agreement was consequently extended, then the combined vehicle fleet of new FRANCHISEE (transferee) must continue to meet the requirements for that extended term.

Upon County request, FRANCHISEE shall pay County an amount requested by County, to conduct investigations deemed necessary by County to determine whether or not to grant its consent to the transfer.

"transfer" means an action (or inaction) which has the direct (or indirect) effect of changing the permittee named on FRANCHISEE's waste collector permit issued by the Los Angeles County Department of Public Health.

SECTION 2 – TERM

A. Length of Term.

1. **Expiration Date.** The term of this Agreement begins on the date of this Agreement and ends on the "Expiration Date" on the cover of this Agreement which is initially the same for all franchisees under Non-Exclusive Commercial Solid Waste Collection Franchise Agreements.
2. **Earned Extension.**
 - a. **50 percent Fleet Conversion.** The term of this agreement will be extended for the following periods of time if FRANCHISEE meets both of the following contract conditions, determined to satisfaction of COUNTY in COUNTY's sole discretion:
 1. FRANCHISEE is not in breach of this Agreement, including compliance with *Diesel Particulate Matter Control Measures 13 CCR 2020 et seq.*; and
 2. 50 percent of the trucks that FRANCHISEE uses to provide franchise services meet the technical specifications for both of the following:
 - new solid waste collection vehicles under Section (d)(1) of the South Coast Air Quality Management District (SCAQMD)

H. Compensation.

COUNTY will compensate FRANCHISEE for any direct costs (such as increased tipping fees) which FRANCHISEE incurs following delivery of materials to a County-designated solid waste facility instead of to a Franchisee-selected solid waste facility.

COUNTY has no obligation to defend the action and will release the material sought, without liability to FRANCHISEE, should FRANCHISEE fail to intervene in said action.

ATTACHMENT NO. 3 (Section 14) INSURANCE REQUIREMENTS

A. PROGRAMS. Without limiting its indemnities, and in the performance of this Agreement and until all of its obligations pursuant to this Agreement have been met, FRANCHISEE shall provide and maintain the following programs of insurance at its own expense. Obligations under this attachment are in addition to and separate from any other obligation in this Agreement. COUNTY reserves the right to review and adjust the insurance requirements in this attachment if County determines that there have been changes in risk exposures. COUNTY makes no warranty that the insurance coverage terms, types and limits in this attachment is sufficient to protect the FRANCHISEE for liabilities that may arise from or in relation to this Agreement.

1. **Primary, Excess, Non-Contributory.** All FRANCHISEE'S insurance shall be primary with respect to any other insurance or self-insurance programs available to COUNTY.
2. **Cancellation of or Changes in Insurance.** FRANCHISEE shall provide COUNTY with, or FRANCHISEE's insurance policies shall contain a provision that COUNTY shall receive, written notice of:

2. 30 days in advance for any other cancellation or policy change.

The written notice cannot include language with respect to "endeavor" or exculpation for "failure to do so".

3. **Noncompliance.** Neither the County's failure to obtain, nor the COUNTY'S receipt of, or failure to object to a noncomplying insurance certificate or endorsement or any other insurance documentation or information provided by the FRANCHISEE, its insurance broker(s) and/or insurer(s), shall be construed as a waiver of any obligation under this attachment. If FRANCHISEE does not provide and maintain those programs of insurance, COUNTY may elect to purchase required insurance coverage without further notice to FRANCHISEE, and COUNTY may charge FRANCHISEE any premium costs advanced by COUNTY for

that insurance and draw on the performance bond, letter, of credit, or other form of performance assurance provided by FRANCHISEE.

FRANCHISEE must comply with all terms of insurance and insurers. However, Insurance must obligate the insurer to pay COUNTY claims that are covered under the policy *even if* FRANCHISEE or COUNTY does not comply with all policy requirements or duties (such as failing to report an incident or claim in a timely manner, law, allowing operations or use of the Project not permitted under the policy, or making misrepresentations).

4. **Evidence of Insurance: COIs and copies of policies.** On the date of this Agreement and thereafter 30 days prior to each policy renewal and also within two County business days of any COUNTY request, FRANCHISEE shall deliver a certificate or certificates of insurance or other evidence of coverage acceptable to the Director at the address provided for Notices. Certificates or other evidence must:

- (1) ***Additional Insured Endorsements.*** Include copies of the additional insured endorsements to General Liability Policy which must add COUNTY and its Special Districts, elected officials,

officers, agents, and employees as additional insureds with respect to liability arising out of ongoing and completed franchise services, and applicable with respect to liability and defense of suits arising out of FRANCHISEE'S acts or omissions, whether that liability is attributable to the FRANCHISEE or the COUNTY.

The full policy limits and scope of protection must apply to each of those additional insureds even if those limits or scope exceed the minimum required insurance specifications in this Agreement. FRANCHISEE may use an automatic additional insured endorsement if the endorsements meet the requirements of this attachment.

- (2) **Waiver of Subrogation Endorsements.** Include copies of subrogation endorsements necessary to effect FRANCHISEE'S waiver of its and its insurer(s)' rights of recovery against County under all insurance, to the fullest extent permitted by law.

 - (6) **Full Policy Limits** and scope of protection must apply to each additional insured even if those limits or scope exceed the minimum required specifications for insurance in this Agreement.
- d. **Deductibles and SIRs.** Identify any retained losses, deductibles or self-insured retention ("SIR") exceeding \$50,000 for COUNTY'S approval. FRANCHISEE'S policies shall not obligate COUNTY to pay any portion of any FRANCHISEE retained loss, deductible or SIR.

COUNTY retains the right to require FRANCHISEE to reduce any deductibles or self-insured retention as they apply to COUNTY or to require FRANCHISEE to provide a bond, letter of credit, or certificate of deposit guaranteeing payment of all retained losses and related costs, including expenses, or both, related to

investigations, claims administrations, and defense. The bond must be executed by a corporate surety licensed to transact business in the State of California; the letter of credit must be issued by a bank or other financial institution acceptable to the County; and

- e. **Signature verification.** Include documentation acceptable to COUNTY verifying the following:
 - that the individual signing or counter-signing the certificates, and at COUNTY'S request, the policies, endorsements, or other evidence of coverage, is authorized to do so, and

- h. **Text of Provisions in Blanket Policies.** A certified copy of the provisions in each blanket policy, if any, that provides evidence satisfactory to COUNTY that the policy meets the requirements of this Agreement.

 - (1) beginning immediately upon filing any action against COUNTY that the insurer would be required to defend, until
 - (2) the deductible or SIR has been met and the insurer does defend COUNTY.

As soon as possible (but no longer than ten days), FRANCHISEE shall report to COUNTY when FRANCHISEE has exceeded FRANCHISEE's deductible or Self Insured Retention ("SIR"). Upon COUNTY request, Insurance must provide:

- (1) application of insurer's defense costs to reduction of deductible or SIR; and
 - (2) give COUNTY right to approve a claims settlement and receive payments directly.
5. **Insurer Financial Rating.** FRANCHISEE shall secure insurance provided by an insurance company meeting the following requirements:
 - (1) be acceptable to COUNTY (for example, COUNTY might require that the insurer be admitted in California), and
 - (2) have a rating by A.M. Best Company of not less than A: VII, unless otherwise approved by COUNTY.
6. **Reporting: Incidents, Claims, or Suits; Claims Paid or Reserved:**
 - a. ***Notification of Incidents, Claims, or Suits.*** As soon as possible, (but no later than ten days after any of the following events) FRANCHISEE shall promptly report the following in writing to the Director:
 - (1) Any accident or incident relating to the franchise services involving injury or property damage that may result in the filing of an insurance claim against any insurance policy, its legal claim, or lawsuit against FRANCHISEE, any subcontractor and/or COUNTY;
 - (2) Any third-party claim or lawsuit filed against FRANCHISEE arising from or related to franchise Services;
 - (3) Any injury to a FRANCHISEE employee that occurs on COUNTY property, and

FRANCHISEE shall submit its report on a COUNTY "Nonemployee Injury Report" form available by request from the COUNTY.

- b. ***Claims Paid or Reserved.*** FRANCHISEE shall immediately report the following in writing to the Director if total claims (both paid and reserved) against any policy of insurance (*except* with respect to Workers' Compensation) exceed more than 80 percent of the required aggregate policy limits. (In that event, FRANCHISEE must obtain additional insurance or provide COUNTY with financial assurance satisfactory to COUNTY in order to maintain those required policy limits.)

7. **Insurance Coverage Requirements.** FRANCHISEE shall secure and maintain insurance coverage meeting the following requirements:

- (1) **General Liability Insurance** (written on ISO policy form CG 00 01 or its equivalent - occurrence, not claims made) with limits of not less than the following:

General Annual Aggregate:	\$4 million
Products/Completed Operations Aggregate:	\$4 million
Personal and Advertising Injury:	\$1 million
Each Occurrence:	\$2 million

The general liability policy must provide contractual liability coverage for FRANCHISEE'S indemnification of COUNTY.

- (2) **Pollution Liability Coverage** for pollution conditions resulting from transported cargo, with annual limits of not less than \$2 million per occurrence and \$4 million aggregate, covering loss (including cleanup costs) that FRANCHISEE becomes legally obligated to pay as a result of claims for bodily injury, property damage, and cleanup costs, (including but not limited to, expenses required by environmental laws or incurred by Federal, State, or local governments or third parties) resulting from pollution conditions caused by transported cargo (including waste). For the purpose of this Subsection, "pollution conditions" includes the dispersal, discharge, release, or escape of any solid, liquid, gaseous or thermal irritant or contaminant (such as smoke, vapors, soot, fumes, acids, alkalis, toxic chemicals, medical waste, and waste materials) into or upon land, any structure on land, the atmosphere, or any watercourse or body of water (including groundwater), provided the conditions are not naturally present in the environment in the amounts or concentrations discovered. The pollution liability coverage must provide contractual liability coverage, by endorsement, if necessary, for FRANCHISEE'S indemnification of COUNTY. FRANCHISEE'S general liability policy may be endorsed to provide the required pollution liability coverage. FRANCHISEE is not required to provide this insurance if it provides franchise services only in roll-off boxes.

- (1) FRANCHISEE is maintaining the required insurance covering the activities of Subcontractors, or
- (2) Subcontractors are maintaining the required insurance coverage.

FRANCHISE shall provide COUNTY with any subcontractor request to modify that insurance coverage and get COUNTY approval prior to modification.

CUSTOMER BILL OF RIGHTS

CUSTOMER BILL OF RIGHTS (which COUNTY may amend)

What We Will Collect. We will collect refuse, green waste and commingled recyclables in bins and/or carts we provide. You must place refuse, recyclable materials, and green waste in the appropriate bins and/or carts. We will not pick up materials that you discard outside of bins and/or carts unless you have made previous arrangements with us, as described below.

Additional Customer Options Regarding Recyclables: Mandatory Recycling. Commercial businesses and multifamily residences that generate 4 cubic yards or more of solid waste per week are required by California law to recycle. To comply with law, you may donate or sell any or all of your recyclables to someone else, such as recycling centers or reuse enterprises or subscribe to recycling services with us. We offer the following recycling service options without additional charge: a one cubic yard recyclable bin or up to two 96 gallon recyclable carts. Additional or larger containers will be offered at half the rate for the same type and capacity of refuse container and same frequency of refuse collection service. In addition, we will conduct annual site visits to evaluate whether your existing levels of refuse and recycling service is appropriate, and promote and implement recycling services.

We Will Not Collect Hazardous Waste or Electrical Waste. *State law prohibits disposal of hazardous materials and certain electronics in your trash.* Hazardous waste includes: most paints, pesticides, petroleum derivatives such as motor oil and solvents, batteries, thermostats, aerosol cans, fluorescent lights, and certain mercury-containing devices. Electrical waste includes "covered electronic devices" and electrically powered equipment described below under "On-Call Pickups", which you may ask us to collect separately. If we identify these items in your trash, we will tag your bin and not collect it. For additional safe and legal disposal options, call the HAZWASTE HOTLINE at (888) CLEAN-LA or visit www.ciwmb.ca.gov/HHW/info.

When We Will Collect. We will collect your containers on your scheduled collection day(s) each week. We will notify you in advance if we make a permanent change in your scheduled collection day. If your scheduled collection day falls on or after a holiday, during a holiday week, collection will be delayed by one day (Friday customers will have their collection on Saturday). We observe the following holidays: Memorial Day, Independence Day, Labor Day, Thanksgiving, Christmas and New Year's Day.

Where We Will Pick Up. You must set your bin(s) at the set-out site as agreed upon unless you have roll-out service. If we agreed to collect on private driveways or pavement, we will ask you to sign a waiver of damage liability and/or indemnification. We must repair or replace, to your satisfaction, damaged property, and reimburse you for cost of personal injury, caused by our negligence or willful acts or omissions. In addition to enforcing your rights under the franchise agreement, you may institute civil suits allowed under law.

CHAPTER 476

An act to amend Sections 41730, 41731, 41734, 41735, 41736, 41800, 42926, 44004, and 50001 of, to add Sections 40004, 41734.5, and 41780.01 to, to add Chapter 12.8 (commencing with Section 42649) to Part 3 of Division 30 of, and to add and repeal Section 41780.02 of, the Public Resources Code, relating to solid waste.

[Approved by Governor October 5, 2011. Filed with
Secretary of State October 6, 2011.]

LEGISLATIVE COUNSEL'S DIGEST

AB 341, Chesbro. Solid waste; diversion.

(1) The California Integrated Waste Management Act of 1989, which is administered by the Department of Resources Recycling and Recovery, requires each city, county, and regional agency, if any, to develop a source reduction and recycling element of an integrated waste management plan containing specified components, including a source reduction component, a recycling component, and a composting component. With certain exceptions, the source reduction and recycling element of that plan is required to divert 50% of all solid waste from landfill disposal or transformation by January 1, 2000, through source reduction, recycling, and composting activities. The department is required to file an annual progress report with the Legislature by March 1 that includes specified information regarding the act.

This bill would make a legislative declaration that it is the policy goal of the state that not less than 75% of solid waste generated be source reduced, recycled, or composted by the year 2020, and would require the department, by January 1, 2014, to provide a report to the Legislature that provides strategies to achieve that policy goal and also includes other specified information and recommendations. The bill would allow the department to provide the report required by the bill in conjunction with the annual progress report, if the combined report is submitted by January 1, 2014. The bill would repeal the report requirement on January 1, 2017.

(2) Existing law requires a city, county, and city and county to incorporate the nondisposal facility element and any amendment to the element into the revised source reduction and recycling element at the time of the 5-year revision of the source reduction and recycling element. Existing law requires the department to review an amendment to a nondisposal facility element and requires a local task force to review and comment on amendments to a nondisposal facility element.

This bill would repeal those requirements. The bill would instead require a city, county, city and county, or regional agency to update all information

required to be included in the nondisposal facility element. The bill would provide that the update is not subject to approval by the department or comment and review by a local task force.

(3) Existing law requires a local agency to impose certain requirements on an operator of a large venue or event to facilitate solid waste reduction, reuse, and recycling.

This bill would require a business, defined to include a commercial or public entity, that generates more than 4 cubic yards of commercial solid waste per week or is a multifamily residential dwelling of 5 units or more to arrange for recycling services, on and after July 1, 2012.

The bill would also require a commercial waste generator to take specified actions with regard to recyclable materials.

The bill would require a jurisdiction, on and after July 1, 2012, to implement a commercial solid waste recycling program meeting specified elements but would not require the jurisdiction to revise its source reduction and recycling element if the jurisdiction adds or expands a commercial solid waste recycling program to meet this requirement. The bill would authorize a local agency to charge and collect a fee from a commercial waste generator to recover the local agency's costs incurred in complying with the commercial solid waste recycling program requirements. By requiring a jurisdiction to implement a commercial solid waste recycling program, this bill would impose a state-mandated local program.

The bill would require the department to review a jurisdiction's compliance with the above requirement as a part of the department's review of a jurisdiction's compliance with the 50% solid waste diversion requirement and would authorize the department to review a jurisdiction's compliance pursuant to a specified procedure.

(4) Existing law requires each state agency to submit an annual report to the department summarizing its progress in reducing solid waste that is due on September 1 of each year starting in 2009.

This bill would change the due date to May 1 of each year.

(5) Existing law requires an operator of a solid waste facility that wants to change the design or operation of the solid waste facility in a manner not authorized by the current permit to apply for a revised permit. Within 60 days of receipt of the application for the revised permit, the enforcement agency is required to inform the operator, and in some circumstances the department, of its determination to allow the change without revision of the permit, disallow the change, require a revision of the permit to allow the change, or require review under the California Environmental Quality Act before a decision is made.

This bill would also require the enforcement agency to give notice of its determination to allow certain changes without a revision to the permit through a modification to the permit allowed by regulations developed by the department.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

—3—

This bill would provide that no reimbursement is required by this act for a specified reason.

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares both of the following:

(1) Since the enactment of the California Integrated Waste Management Act of 1989 (Division 30 (commencing with Section 40000) of the Public Resources Code), local governments and private industries have worked jointly to create an extensive material collection and recycling infrastructure and have implemented effective programs to achieve a statewide diversion rate above 50 percent.

(2) Although the state now leads the nation in solid waste reduction and recycling, the state continues to dispose of more than 40 million tons of solid waste each year, which is more than the national average on a per capita basis. Additional efforts must be undertaken to divert more solid waste from disposal in order to conserve scarce natural resources.

(b) The Legislature further finds and declares all of the following:

(1) Approximately 64 percent of the state's solid waste disposal is from commercial sources, including commercial, industrial, construction, and demolition activities. In addition, 8 percent of the state's solid waste disposal is from multifamily residential housing that is often collected along with the commercial waste stream.

(2) The state's local governments have made significant progress in reducing the amount of solid waste disposal from single-family residential sources that make up 28 percent of the state's disposal, but have faced more challenges in reducing disposal from the commercial and multifamily sources.

(3) The disposal of recyclable materials in the commercial solid waste stream prevents materials from circulating in the state economy to produce jobs and new products. Reducing the disposal of these materials will conserve landfill capacity and contribute to a reduction in greenhouse gas emissions and climate change.

(4) The state has long been a national and international leader in environmental stewardship efforts and mandating the diversion of solid waste away from disposal. Bold environmental leadership and a new approach are needed to divert commercial solid waste away from disposal.

(5) By exercising a leadership role, the state will lead the business community toward a future in which the environment and the economy both grow stronger together by recycling materials, which creates new jobs, instead of burying resources, which exit the economy forever.

(6) By requiring commercial recycling, the state will help businesses reduce costly disposal fees and reclaim valuable resources.

SEC. 2. Section 40004 is added to the Public Resources Code, to read:

40004. (a) The Legislature finds and declares all of the following:

(1) Solid waste diversion and disposal reduction require the availability of adequate solid waste processing and composting capacity.

(2) The existing network of public and private solid waste processing and composting facilities provides a net environmental benefit to the communities served, and represents a valuable asset and resource of this state, one that must be sustained and expanded to provide the additional solid waste processing capacity that will be required to achieve the additional solid waste diversion targets expressed in Section 41780.01 and the commercial solid waste recycling requirement expressed in Section 42649.

(3) The provisions in existing law that confer broad discretion on local agencies to determine aspects of solid waste handling that are of local concern have significantly contributed to the statewide diversion rate exceeding 50 percent, and further progress toward decreasing solid waste disposal requires that this essential element of local control be preserved.

(b) It is the intent of the Legislature to encourage the development of the additional solid waste processing and composting capacity that is needed to meet state objectives for decreasing solid waste disposal by identifying incentives for local governments to locate and approve new or expanded facilities that meet and exceed their capacity needs, and to recognize local agencies that make significant contributions to the state's overall solid waste reduction and recycling objectives through the siting of facilities for the processing and composting of materials diverted from the solid waste stream.

(c) By setting new commercial solid waste recycling requirements in Section 42649, the Legislature does not intend to limit a right afforded to local governments pursuant to Section 40059, or to modify or abrogate in any manner the rights of a local government or solid waste enterprise with regard to a solid waste handling franchise or contract.

SEC. 3. Section 41730 of the Public Resources Code is amended to read:

41730. Except as provided in Section 41750.1, each city shall prepare, adopt, and, except for a city and county, transmit to the county in which the city is located a nondisposal facility element that includes all of the information required by this chapter and that is consistent with the implementation of a city source reduction and recycling element adopted pursuant to this part. The nondisposal facility element and any updates to the element shall not be subject to the approval of the county and the majority of cities with the majority of the population in the incorporated area.

SEC. 4. Section 41731 of the Public Resources Code is amended to read:

41731. Except as provided in Section 41750.1, each county shall prepare, adopt, and, except for a city and county, transmit to the cities located in the county a nondisposal facility element that includes all of the information required by this chapter and that is consistent with the implementation of a county source reduction and recycling element adopted pursuant to this part. The nondisposal facility element and any updates to the element shall not be subject to the approval of the majority of cities with the majority of the population in the incorporated area.

SEC. 5. Section 41734 of the Public Resources Code is amended to read:

EXHIBIT D

— 5 —

41734. (a) (1) Prior to adopting a nondisposal facility element, the city, county, or regional agency shall submit the element to the task force created pursuant to Section 40950 for review and comment.

(2) Prior to adopting a regional agency nondisposal facility element, if the jurisdiction of the regional agency extends beyond the boundaries of a single county, the regional agency shall submit the element for review and comment to each task force created pursuant to Section 40950 of each county within the jurisdiction of the regional agency.

(b) Comments by the task force shall include an assessment of the regional impacts of potential diversion facilities and shall be submitted to the city, county, or regional agency and to the department within 90 days of the date of receipt of the nondisposal facility element for review and comment.

SEC. 6. Section 41734.5 is added to the Public Resources Code, to read:

41734.5. (a) Once a nondisposal facility element has been adopted, the city, county, or regional agency shall update all information required to be included in the nondisposal facility element, including, but not limited to, new information regarding existing and new, or proposed, nondisposal facilities.

(b) Updates shall be provided to the department within 30 days of any change in information.

(c) Copies of the updated information shall also be provided to the local task force and shall be appended or otherwise added to the nondisposal facility element.

(d) The local task force shall not be required to review and comment on the updates to the nondisposal facility elements.

(e) Updates to the nondisposal facility elements are not subject to approval by the department.

SEC. 7. Section 41735 of the Public Resources Code is amended to read:

41735. (a) Notwithstanding Division 13 (commencing with Section 21000), the adoption or update of a nondisposal facility element shall not be subject to environmental review.

(b) Local agencies may impose a fee on project proponents to fund their necessary and actual costs of preparing and approving updates to nondisposal facility elements.

SEC. 8. Section 41736 of the Public Resources Code is amended to read:

41736. It is not the intent of the Legislature to require cities and counties to revise their source reduction and recycling elements to comply with the requirements of this chapter.

SEC. 9. Section 41780.01 is added to the Public Resources Code, to read:

41780.01. (a) The Legislature hereby declares that it is the policy goal of the state that not less than 75 percent of solid waste generated be source reduced, recycled, or composted by the year 2020, and annually thereafter.

(b) Notwithstanding subdivision (a), the department shall not establish or enforce a diversion rate on a city or county that is greater than the 50 percent diversion rate established pursuant to Section 41780.

SEC. 10. Section 41780.02 is added to the Public Resources Code, to read:

41780.02. (a) On or before January 1, 2014, the department shall submit a report to the Legislature that provides strategies to achieve the state's policy goal that not less than 75 percent of solid waste generated be source reduced, recycled, or composted by the year 2020, and annually thereafter, pursuant to Section 41780.01.

(b) The report shall also include all of the following:

(1) A review and update of the information required pursuant to subparagraph (A) of paragraph (4) of subdivision (c) of Section 40507, with emphasis on new and emerging trends in resource management.

(2) Identification of problematic waste streams and sources and recommendations on handling those waste streams.

(3) Evaluation of current programs and their effectiveness, and recommendations for changes to those programs.

(4) Recommendations for reprioritizing existing resources to best achieve the purpose of Section 41780.01.

(5) Recommendations for legislative changes, if any, that are necessary to achieve the goals of Section 41780.01.

(6) Report on regulatory changes, if any, that are necessary, to achieve the goals of Section 41780.01.

(7) Any other information or recommendations the department deems pertinent.

(c) The department may provide the report required pursuant to this section in conjunction with the report required pursuant to Section 40507 if the combined report is submitted on or before January 1, 2014.

(d) The department may hold public workshops to gather input from stakeholders.

(e) (1) Pursuant to Section 10231.5 of the Government Code, this section is repealed on January 1, 2017.

(2) The report shall be submitted in compliance with Section 9795 of the Government Code.

SEC. 11. Section 41800 of the Public Resources Code is amended to read:

41800. (a) Except as provided in subdivision (b), within 120 days from the date of receipt of a countywide or regional integrated waste management plan that the department has determined to be complete, or any element of the plan that the department has determined to be complete, the department shall determine whether the plan or element is in compliance with Article 2 (commencing with Section 40050) of Chapter 1 of Part 1, Chapter 2 (commencing with Section 41000), and Chapter 5 (commencing with Section 41750), and, based upon that determination, the department shall approve, conditionally approve, or disapprove the plan or element.

(b) (1) Within 120 days from the date of receipt of a city, county, or regional agency nondisposal facility element that the department has determined to be complete, the department shall determine whether the element that the department has determined to be complete is in compliance

EXHIBIT D

- 7 -

with Chapter 4.5 (commencing with Section 41730) and Article 1 (commencing with Section 41780) of Chapter 6, and, based upon that determination, the department shall approve, conditionally approve, or disapprove the element within that time period.

(2) In reviewing the element, the department shall:

(A) Not consider the estimated capacity of the facility or facilities in the element unless the department determines that this information is needed to determine whether the element meets the requirements of Article 1 (commencing with Section 41780) of Chapter 6.

(B) Recognize that individual facilities represent portions of local plans or programs that are designed to achieve the diversion requirements of Section 41780 and therefore may not arbitrarily require new or expanded diversion at proposed facilities.

(C) Not disapprove an element that includes a transfer station or other facility solely because the facility does not contribute toward the jurisdiction's efforts to comply with Section 41780.

(c) If the department does not act to approve, conditionally approve, or disapprove an element that the department has determined to be complete within 120 days, the department shall be deemed to have approved the element.

SEC. 12. Chapter 12.8 (commencing with Section 42649) is added to Part 3 of Division 30 of the Public Resources Code, to read:

CHAPTER 12.8. RECYCLING OF COMMERCIAL SOLID WASTE

42649. (a) It is the intent of the Legislature to require businesses to recycle solid waste that they generate.

(b) It is the intent of the Legislature to allow jurisdictions flexibility in developing and maintaining commercial solid waste recycling programs.

(c) It is the intent of the Legislature to reduce greenhouse gas emissions by diverting commercial solid waste to recycling efforts and to expand the opportunity for additional recycling services and recycling manufacturing facilities in California.

42649.1. For purposes of this chapter, the following terms mean the following:

(a) "Business" means a commercial or public entity, including, but not limited to, a firm, partnership, proprietorship, joint stock company, corporation, or association that is organized as a for-profit or nonprofit entity, or a multifamily residential dwelling.

(b) "Commercial solid waste" has the same meaning as defined in Section 17225.12 of Title 14 of the California Code of Regulations.

(c) "Commercial waste generator" means a business subject to subdivision (a) of Section 42649.2.

(d) "Self-hauler" means a business that hauls its own waste rather than contracting for that service.

42649.2. (a) On and after July 1, 2012, a business that generates more than four cubic yards of commercial solid waste per week or is a multifamily residential dwelling of five units or more shall arrange for recycling services, consistent with state or local laws or requirements, including a local ordinance or agreement, applicable to the collection, handling, or recycling of solid waste, to the extent that these services are offered and reasonably available from a local service provider.

(b) A commercial waste generator shall take at least one of the following actions:

(1) Source separate recyclable materials from solid waste and subscribe to a basic level of recycling service that includes collection, self-hauling, or other arrangements for the pickup of the recyclable materials.

(2) Subscribe to a recycling service that may include mixed waste processing that yields diversion results comparable to source separation.

(c) A property owner of a multifamily residential dwelling may require tenants to source separate their recyclable materials to aid in compliance with this section.

42649.3. (a) On and after July 1, 2012, each jurisdiction shall implement a commercial solid waste recycling program appropriate for that jurisdiction designed to divert commercial solid waste from businesses subject to Section 42649.2, whether or not the jurisdiction has met the requirements of Section 41780.

(b) If a jurisdiction already has a commercial solid waste recycling program as one of its diversion elements that meets the requirements of this section, it shall not be required to implement a new or expanded commercial solid waste recycling program.

(c) The commercial solid waste recycling program shall be directed at a commercial waste generator, as defined in subdivision (b) of Section 42649.1, and may include, but is not limited to, any of the following:

(1) Implementing a mandatory commercial solid waste recycling policy or ordinance.

(2) Requiring a mandatory commercial solid waste recycling program through a franchise contract or agreement.

(3) Requiring all commercial solid waste to go through either a source separated or mixed processing system that diverts material from disposal.

(d) The commercial solid waste recycling program shall include education, outreach to, and monitoring of, businesses. A jurisdiction shall notify a business if the business is not in compliance with Section 42649.2.

(e) The commercial solid waste recycling program may include enforcement provisions that are consistent with a jurisdiction's authority, including a structure for fines and penalties.

(f) The commercial solid waste recycling program may include certification requirements for self-haulers.

(g) The department shall review a jurisdiction's compliance with this section as part of the department's review required by Section 41825. Each jurisdiction shall report the progress achieved in implementing its commercial recycling program, including education, outreach, identification,

EXHIBIT D

— 9 —

and monitoring, and if applicable, enforcement efforts, by providing updates in the annual report required by Section 41821.

(h) The department may also review whether a jurisdiction is in compliance with this section at any time that the department receives information that a jurisdiction has not implemented, or is not making a good faith effort to implement, a commercial recycling program.

(i) During its review pursuant to subdivision (g) or (h), the department shall determine whether each jurisdiction has made a good faith effort to implement its selected commercial recycling program. For purposes of this section, "good faith effort" means all reasonable and feasible efforts by a jurisdiction to implement its commercial recycling program. During its review, the department may include, but is not limited to, the following factors in its evaluation of a jurisdiction's good faith effort:

(1) The extent to which businesses have complied with Section 42649.2, including information on the amount of disposal that is being diverted from the businesses, if available, and on the number of businesses that are subscribing to service.

(2) The recovery rate of the commercial waste from the material recovery facilities that are utilized by the businesses, all information, methods, and calculations, and any additional performance data, as requested by the department from the material recovery facilities pursuant to Section 18809.4 of Title 14 of the California Code of Regulations.

(3) The extent to which the jurisdiction is conducting education and outreach to businesses.

(4) The extent to which the jurisdiction is monitoring businesses, and notifying those businesses that are out of compliance.

(5) The availability of markets for collected recyclables.

(6) Budgetary constraints.

(7) In the case of a rural jurisdiction, the effects of small geographic size, low population density, or distance to markets.

42649.4. (a) If a jurisdiction adds or expands a commercial solid waste recycling program to meet the requirements of Section 42649.3, the jurisdiction shall not be required to revise its source reduction and recycling element, or obtain the department's approval pursuant to Article 1 (commencing with Section 41800) of Chapter 7 of Part 1.

(b) If an addition or expansion of a jurisdiction's commercial solid waste recycling program is necessary, the jurisdiction shall update in its annual report required pursuant to Section 41821.

42649.5. (a) This chapter does not limit the authority of a local agency to adopt, implement, or enforce a local commercial solid waste recycling requirement that is more stringent or comprehensive than the requirements of this section or limit the authority of a local agency in a county with a population of less than 200,000 to require commercial solid waste recycling.

(b) This chapter does not modify, limit, or abrogate in any manner any of the following:

(1) A franchise granted or extended by a city, county, or other local government agency.

(2) A contract, license, or permit to collect solid waste previously granted or extended by a city, county, or other local government agency.

(3) The existing right of a business to sell or donate its recyclable materials.

42649.6. A local agency may charge and collect a fee from a commercial waste generator in order to recover the local agency's costs incurred in complying with this chapter.

42649.7. If the State Air Resources Board adopts regulations for commercial recycling prior to the effective date of the act of the 2011-12 Regular Session of the Legislature adding this section, those regulations shall be deemed to have been adopted by the department, and they shall be added to the department's regulations and deleted from the board's regulations as if it were a change without regulatory effect.

SEC. 13. Section 42926 of the Public Resources Code is amended to read:

42926. (a) In addition to the information provided to the department pursuant to Section 12167.1 of the Public Contract Code, each state agency shall submit an annual report to the department summarizing its progress in reducing solid waste as required by Section 42921. The annual report shall be due on or before May 1, 2012, and on or before May 1 in each subsequent year. The information in this report shall encompass the previous calendar year.

(b) Each state agency's annual report to the department shall, at a minimum, include all of the following:

- (1) Calculations of annual disposal reduction.
- (2) Information on the changes in waste generated or disposed of due to increases or decreases in employees, economics, or other factors.
- (3) A summary of progress made in implementing the integrated waste management plan.
- (4) The extent to which the state agency intends to utilize programs or facilities established by the local agency for the handling, diversion, and disposal of solid waste. If the state agency does not intend to utilize those established programs or facilities, the state agency shall identify sufficient disposal capacity for solid waste that is not source reduced, recycled, or composted.
- (5) Other information relevant to compliance with Section 42921.

(c) The department shall use, but is not limited to the use of, the annual report in the determination of whether the agency's integrated waste management plan needs to be revised.

SEC. 14. Section 44004 of the Public Resources Code is amended to read:

44004. (a) An operator of a solid waste facility shall not make a significant change in the design or operation of the solid waste facility that is not authorized by the existing permit, unless the change is approved by the enforcement agency, the change conforms with this division and all regulations adopted pursuant to this division, and the terms and conditions of the solid waste facilities permit are revised to reflect the change.

-11-

(b) If the operator wishes to change the design or operation of the solid waste facility in a manner that is not authorized by the existing permit, the operator shall file an application for revision of the existing solid waste facilities permit with the enforcement agency. The application shall be filed at least 180 days in advance of the date when the proposed modification is to take place unless the 180-day time period is waived by the enforcement agency.

(c) The enforcement agency shall review the application to determine all of the following:

(1) Whether the change conforms with this division and all regulations adopted pursuant to this division.

(2) Whether the change requires review pursuant to Division 13 (commencing with Section 21000).

(d) Within 60 days from the date of the receipt of the application for a revised permit, the enforcement agency shall inform the operator, and if the enforcement agency is a local enforcement agency, also inform the department, of its determination to do any of the following:

(1) Allow the change without a revision to the permit.

(2) Allow the following changes without a revision to the permit through a modification to the permit allowed pursuant to regulations developed by the department:

(A) The proposed change is to allow a nondisposal facility to increase the amount of solid waste that it may handle and that increased amount is within the existing design capacity as described in the facility's transfer processing report and review pursuant to Division 13 (commencing with Section 21000).

(B) The proposed change is to allow a disposal facility to add a nondisposal activity to the facility that will increase the amount of solid waste that may be handled as described in the facility's report of facility information and review pursuant to Division 13 (commencing with Section 21000).

(3) Disallow the change because it does not conform with the requirements of this division or the regulations adopted pursuant to this division.

(4) Require a revision of the solid waste facilities permit to allow the change.

(5) Require review under Division 13 (commencing with Section 21000) before a decision is made.

(e) The operator has 30 days within which to appeal the decision of the enforcement agency to the hearing panel, as authorized pursuant to Article 2 (commencing with Section 44305) of Chapter 4. The enforcement agency shall provide notice of a hearing held pursuant to this subdivision in the same manner as notice is provided pursuant to subdivision (h).

(f) Under circumstances that present an immediate danger to the public health and safety or to the environment, as determined by the enforcement agency, the 180-day filing period may be waived.

(g) (1) A permit revision is not required for the temporary suspension of activities at a solid waste facility if the suspension meets either of the following criteria:

(A) The suspension is for the maintenance or minor modifications to a solid waste unit or to solid waste management equipment.

(B) The suspension is for temporarily ceasing the receipt of solid waste at a solid waste management facility and the owner or operator is in compliance with all other applicable terms and conditions of the solid waste facilities permit and minimum standards adopted by the department.

(2) An owner or operator of a solid waste facility who temporarily suspends operations shall remain subject to the closure and postclosure maintenance requirements of this division and to all other requirements imposed by federal law pertaining to the operation of a solid waste facility.

(3) The enforcement agency may impose any reasonable conditions relating to the maintenance of the solid waste facility, environmental monitoring, and periodic reporting during the period of temporary suspension. The department may also impose any reasonable conditions determined to be necessary to ensure compliance with applicable state standards.

(h) (1) (A) Before making its determination pursuant to subdivision (d), the enforcement agency shall submit the proposed determination to the department for comment and hold at least one public hearing on the proposed determination. The enforcement agency shall give notice of the hearing pursuant to Section 65091 of the Government Code, except that the notice shall be provided to all owners of real property within a distance other than 300 feet of the real property that is the subject of the hearing, if specified in the regulations adopted by the department pursuant to subdivision (i). The enforcement agency shall also provide notice of the hearing to the department when it submits the proposed determination to the department.

(B) The enforcement agency shall mail or deliver the notice required pursuant to subparagraph (A) at least 10 days prior to the date of the hearing to any person who has filed a written request for the notice with a person designated by the enforcement agency to receive these requests. The enforcement agency may charge a fee to the requester in an amount that is reasonably related to the costs of providing this service and the enforcement agency may require each request to be annually renewed.

(C) The enforcement agency shall consider environmental justice issues when preparing and distributing the notice to ensure that the notice is concise and understandable for limited-English-speaking populations.

(2) If the department comments pursuant to paragraph (1), the department shall specify whether the proposed determination is consistent with the regulation adopted pursuant to subdivision (i).

(i) (1) The department shall, to the extent resources are available, adopt regulations that implement subdivision (h) and define the term "significant change in the design or operation of the solid waste facility that is not authorized by the existing permit."

EXHIBIT D

— 13 —

(2) While formulating and adopting the regulations required pursuant to paragraph (1), the department shall consider recommendations of the Working Group on Environmental Justice and the advisory group made pursuant to Sections 71113 and 71114 and the report required pursuant to Section 71115.

SEC. 15. Section 50001 of the Public Resources Code is amended to read:

50001. (a) Except as provided by subdivision (b), after a countywide or regional agency integrated waste management plan has been approved by the Department of Resources Recycling and Recovery pursuant to Division 30 (commencing with Section 40000), a person shall not establish or expand a solid waste facility, as defined in Section 40194, in the county unless the solid waste facility meets one of the following criteria:

(1) The solid waste facility is a disposal facility or a transformation facility, the location of which is identified in the countywide siting element or amendment to that element, which has been approved pursuant to Section 41721.

(2) The solid waste facility is a facility that is designed to recover for reuse or recycling at least 5 percent of the total volume of material received by the facility, and that is identified in the nondisposal facility element that has been approved pursuant to Section 41800 or is included in an update to that element.

(b) Solid waste facilities other than those specified in paragraphs (1) and (2) of subdivision (a) shall not be required to comply with the requirements of this section.

(c) The person or agency proposing to establish a solid waste facility shall prepare and submit a site identification and description of the proposed facility to the task force established pursuant to Section 40950. Within 90 days after the site identification and description is submitted to the task force, the task force shall meet and comment on the proposed solid waste facility in writing. These comments shall include, but are not limited to, the relationship between the proposed solid waste facility and the implementation schedule requirements of Section 41780 and the regional impact of the facility. The task force shall transmit these comments to the person or public agency proposing establishment of the solid waste facility, to the county, and to all cities within the county. The comments shall become part of the official record of the proposed solid waste facility.

(d) The review and comment by the local task force shall not be required for an update to a nondisposal facility element.

SEC. 16. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.

Rulemaking History Prior to AB 341

Prior to the passage AB 341, CalRecycle and the ARB worked together to establish a rulemaking process for the Mandatory Commercial Recycling Measure required in the AB 32 Scoping Plan. Under a Memorandum of Understanding between the two, CalRecycle was responsible for developing, implementing, and enforcing the regulations, while ARB was responsible for adopting the regulations and providing additional enforcement if needed.

EXHIBIT D

To build the basis for the rulemaking, CalRecycle and the ARB hosted eight (8) informal workshops to solicit stakeholder feedback regarding the measure and associated draft regulations. These workshops offered an informal opportunity to talk about design and implementation issues of this measure.

While there are some distinctions between the draft regulations in this prior rulemaking effort and the commercial recycling program outlined in AB 341, the fundamental framework and principals are parallel. Therefore, CalRecycle staff has adjusted the proposed regulation for a new rulemaking, as described above to reflect the specifics of AB 341, while also carrying forward the language and details incorporated through the nearly 3-year informal stakeholder engagement process.

The following provides additional details regarding each of these workshops.

Workshop Dates

July 19, 2011, Sacramento, California

CalRecycle staff conducted a workshop seeking stakeholder input on additional staff economic analysis and changes to the proposed AB 32 Mandatory Commercial Recycling regulation since the January 19, 2011 meeting. The workshop materials and description are posted on the related [CalRecycle public notice page](#).

At the January 19, 2011 workshop, CalRecycle and ARB staff reviewed the [revised draft regulatory language](#) (PDF, 116 KB), various related economic and environmental impact analyses, and the final draft report for the cost study on commercial recycling. Staff engaged with participants, addressing questions and collecting informal stakeholder comments related to these subjects through January 26, 2011.

September 21, 2010, Sacramento, California

In coordination with the Air Resources Board, CalRecycle focused the September 21, 2010 informal stakeholder workshop on [various related analysis efforts](#), including the:

- Cost model for economic evaluation of the proposed regulation with supplemental economic analysis

All interested stakeholders were invited to informal stakeholder workshops on Mandatory Commercial Recycling.

Staff provided background information regarding this measure, including related legislation, support projects, and the overall timeline at two initial workshops hosted in the summer of 2009. Discussion included input on a range of issues such as thresholds, exemptions, implementation, enforcement, and costs. These are also described in the related "white paper" provided above.

In follow-up to these workshops, staff prepared and presented a summary of the informal stakeholder comment received relative to staff's draft conceptual regulatory provisions at the September 9, 2009, Strategic Policy Development Committee meeting. At this meeting, staff was directed to use these conceptual regulatory provisions as the basis for draft regulatory language to be presented and discussed at the Strategic Policy Development Committee meeting in December 2009.

Notice 1015

(Rev. December 2011)

Have You Told Your Employees About the Earned Income Credit (EIC)?

What Is the EIC?

The EIC is a refundable tax credit for certain workers.

Which Employees Must I Notify About the EIC?

You must notify each employee who worked for you at any time during the year and from whom you did not withhold income tax. However, you do not have to notify any employee who claimed exemption from withholding on Form W-4, Employee's Withholding Allowance Certificate.

Note. You are encouraged to notify each employee whose wages for 2011 are less than \$49,078 that he or she may be eligible for the EIC.

How and When Must I Notify My Employees?

You must give the employee one of the following:

- The IRS Form W-2, Wage and Tax Statement, which has the required information about the EIC on the back of Copy B.
- A substitute Form W-2 with the same EIC information on the back of the employee's copy that is on Copy B of the IRS Form W-2.
- Notice 797, Possible Federal Tax Refund Due to the Earned Income Credit (EIC).
- Your written statement with the same wording as Notice 797.

If you are required to give Form W-2 and do so on time, no further notice is necessary if the Form W-2 has the required information about the EIC on the back of the employee's copy. If a substitute Form W-2 is given on time but does not have the required information, you must notify the employee within 1 week of the date the substitute Form W-2 is given. If Form W-2 is required but is not given on time, you must give the employee Notice 797 or your written statement by the date Form W-2 is required to be given. If Form W-2 is not required, you must notify the employee by February 7, 2012.

You must hand the notice directly to the employee or send it by first-class mail to the employee's last known address. You will not meet the notification requirements by posting Notice 797 on an employee bulletin board or sending it through office mail. However, you may want to post the notice to help inform all employees of the EIC. You can get copies of the notice from IRS.gov or by calling 1-800-829-3676.

How Will My Employees Know If They Can Claim the EIC?

The basic requirements are covered in Notice 797. For more detailed information, the employee needs to see Pub. 596, Earned Income Credit (EIC), or the instructions for Form 1040, 1040A, or 1040EZ.

How Do My Employees Claim the EIC?

Eligible employees claim the EIC on their 2011 tax return. Even employees who have no tax withheld from their pay or owe no tax can claim the EIC and get a refund, but they must file a tax return to do so. For example, if an employee has no tax withheld in 2011 and owes no tax but is eligible for a credit of \$829, he or she must file a 2011 tax return to get the \$829 refund.

Can My Employees Get Advance EIC Payments?

After 2010, your employees can no longer get advance payments of the credit in their pay during the year as they could in 2010 and earlier years, because the law changed. However, if they are eligible, they will still be able to claim the credit on their tax return.

Form W-5, Earned Income Credit Advance Payment Certificate, is no longer in use.

Safely Surrendered *Baby Law*

*Babies can be safely surrendered

Safely Surrendered Baby Law

What is the Safely Surrendered Baby Law?

Every baby deserves a chance for a healthy life. If someone you know is considering abandoning a baby, let her know there are other options. For three days (72 hours) after birth, a baby can be surrendered to staff at any hospital or fire station in Los Angeles County.

How does it work?

A distressed parent who is unable or unwilling to care for a baby can legally, confidentially, and safely surrender a baby within three days (72 hours) of birth. The baby must be handed to an employee at a hospital or fire station in Los Angeles County. As long as the baby shows no sign of abuse or neglect, no name or other information is required. In case the parent changes his or her mind at a later date and wants the baby back, staff will use bracelets to help connect them to each other. One bracelet will be placed on the baby, and a matching bracelet will be given to the parent or other surrendering adult.

What if a parent wants the baby back?

Parents who change their minds can begin the process of reclaiming their baby within 14 days. These parents should call the Los Angeles County Department of Children and Family Services at 1-800-540-4000.

Can only a parent bring in the baby?

No. While in most cases a parent will bring in the baby, the Law allows other people to bring in the baby if they have lawful custody.

Does the parent or surrendering adult have to call before bringing in the baby?

No. A parent or surrendering adult can bring in a baby anytime, 24 hours a day, 7 days a week, as long as the parent or surrendering adult surrenders the baby to someone who works at the hospital or fire station.

Does the parent or surrendering adult have to tell anything to the people taking the baby?

No. However, hospital or fire station personnel will ask the surrendering party to fill out a questionnaire designed to gather important medical history information, which is very useful in caring for the baby. The questionnaire includes a stamped return envelope and can be sent in at a later time.

What happens to the baby?

The baby will be examined and given medical treatment. Upon release from the hospital, social workers immediately place the baby in a safe and loving home and begin the adoption process.

What happens to the parent or surrendering adult?

Once the parent or surrendering adult surrenders the baby to hospital or fire station personnel, they may leave at any time.

Why is California doing this?

The purpose of the Safely Surrendered Baby Law is to protect babies from being abandoned, hurt or killed by their parents. You may have heard tragic stories of babies left in dumpsters or public bathrooms. Their parents may have been under severe emotional distress. The mothers may have hidden their pregnancies, fearful of what would happen if their families found out. Because they were afraid and had no one or nowhere to turn for help, they abandoned their babies. Abandoning a baby is illegal and places the baby in extreme danger. Too often, it results in the baby's death. The Safely Surrendered Baby Law prevents this tragedy from ever happening again in California.

A baby's story

Early in the morning on April 9, 2005, a healthy baby boy was safely surrendered to nurses at Harbor-UCLA Medical Center. The woman who brought the baby to the hospital identified herself as the baby's aunt and stated the baby's mother had asked her to bring the baby to the hospital on her behalf. The aunt was given a bracelet with a number matching the anklet placed on the baby; this would provide some identification in the event the mother changed her mind about surrendering the baby and wished to reclaim the baby in the 14-day period allowed by the Law. The aunt was also provided with a medical questionnaire and said she would have the mother complete and mail back in the stamped return envelope provided. The baby was examined by medical staff and pronounced healthy and full-term. He was placed with a loving family that had been approved to adopt him by the Department of Children and Family Services.

Ley de Entrega de Bebés Sin Peligro

¿Qué es la Ley de Entrega de Bebés Sin Peligro?

La Ley de Entrega de Bebés Sin Peligro es una ley que permite a una madre o padre entregar a su recién nacido a un empleado de cualquier hospital o cuartel de bomberos del Condado de Los Angeles.

Siempre que el bebé no presente signos de abuso o negligencia, no será necesario suministrar nombres ni información alguna. Si el padre/madre cambia de opinión posteriormente y desea recuperar a su bebé, los trabajadores utilizarán brazaletes para poder vincularlos.

El bebé llevará un brazalete y el padre/madre o el adulto que lo entregue recibirá un brazalete igual.

Los padres que cambien de opinión pueden avanzar el proceso de reclamar a su recién nacido dentro de los 14 días. Fuera de este período, los padres deberán llamar al Departamento de Servicios para Niños y Familias (Department of Children and Family Services) del Condado de Los Angeles al 1-800-540-4000.

Si bien en la mayoría de los casos son los padres los que llevan al bebé, la ley permite que otras personas lo hagan si tienen custodia legal.

La finalidad de la Ley de Entrega de Bebés Sin Peligro es proteger a los bebés para que no sean abandonados, lastimados o muertos por sus padres. Usted probablemente haya escuchado historias trágicas sobre bebés abandonados en basureros o en baños públicos. Los padres de esos bebés probablemente hayan estado pasando por dificultades emocionales graves. Los padres pueden haber ocultado su embarazo, por temor a lo que pasaría si sus familias se enteraran. Abandonaron a sus bebés porque tenían miedo y no tenían nadie a quien pedir ayuda. El abandono de un recién nacido es ilegal y pone al bebé en una situación de peligro extremo. Muy a menudo el abandono provoca la muerte del bebé. La Ley de Entrega de Bebés Sin Peligro impide que vuelva a suceder esta tragedia en California.

Cada recién nacido se merece la oportunidad de tener una vida saludable. Si alguien que usted conoce está pensando en abandonar a un recién nacido, infórmelo que tiene otras opciones. Hasta tres días (72 horas) después del nacimiento, se puede entregar un recién nacido al personal de cualquier hospital o cuartel de bomberos del condado de Los Angeles.

¿Cómo funciona?

El padre/madre con dificultades que no pueda o no quiera cuidar de su recién nacido puede entregarlo en forma legal, confidencial y segura dentro de los tres días (72 horas) del nacimiento. El bebé debe ser entregado a un empleado de cualquier hospital o cuartel de bomberos del Condado de Los Angeles. Siempre que el bebé no presente signos de abuso o negligencia, no será necesario suministrar nombres ni información alguna. Si el padre/madre cambia de opinión posteriormente y desea recuperar a su bebé, los trabajadores utilizarán brazaletes para poder vincularlos. El bebé llevará un brazalete y el padre/madre o el adulto que lo entregue recibirá un brazalete igual.

¿Qué pasa si el padre/madre desea recuperar a su bebé?

Los padres que cambien de opinión pueden avanzar el proceso de reclamar a su recién nacido dentro de los 14 días. Fuera de este período, los padres deberán llamar al Departamento de Servicios para Niños y Familias (Department of Children and Family Services) del Condado de Los Angeles al 1-800-540-4000.

¿Sólo los padres podrán llevar al recién nacido?

No. Si bien en la mayoría de los casos son los padres los que llevan al bebé, la ley permite que otras personas lo hagan si tienen custodia legal.

¿Los padres o el adulto que entrega al bebé deben llamar antes de llevar al bebé?

No. El padre/madre o adulto puede llevar al bebé en cualquier momento, los 24 horas del día, los 7 días de la semana, siempre y cuando entreguen a su bebé a un empleado del hospital o cuartel de bomberos.

¿Es necesario que el padre/madre o adulto diga algo a las personas que reciben al bebé?

No. Sin embargo, el personal del hospital o cuartel de bomberos le pedirá a la persona que entregue al bebé que llene un cuestionario con la finalidad de recabar antecedentes médicos importantes, que resultan de gran utilidad para cuidar bien del bebé. El cuestionario incluye un sobre con el sello postal pagado para enviarlo en otro momento.

¿Qué pasará con el bebé?

El bebé será examinado y le brindarán atención médica. Cuando le den el alta del hospital, los trabajadores sociales inmediatamente ubicarán al bebé en un hogar seguro donde estará bien atendido, y se comenzará el proceso de adopción.

¿Qué pasará con el padre/madre o adulto que entregue al bebé?

Una vez que los padres o adulto hayan entregado al bebé al personal del hospital o cuartel de bomberos, pueden irse en cualquier momento.

¿Por qué se está haciendo esto en California?

La finalidad de la Ley de Entrega de Bebés Sin Peligro es proteger a los bebés para que no sean abandonados, lastimados o muertos por sus padres. Usted probablemente haya escuchado historias trágicas sobre bebés abandonados en basureros o en baños públicos. Los padres de esos bebés probablemente hayan estado pasando por dificultades emocionales graves. Los padres pueden haber ocultado su embarazo, por temor a lo que pasaría si sus familias se enteraran. Abandonaron a sus bebés porque tenían miedo y no tenían nadie a quien pedir ayuda. El abandono de un recién nacido es ilegal y pone al bebé en una situación de peligro extremo. Muy a menudo el abandono provoca la muerte del bebé. La Ley de Entrega de Bebés Sin Peligro impide que vuelva a suceder esta tragedia en California.

Historia de un bebé

A la mañana temprana del día 2 de abril de 2005, se entregó un recién nacido saludable a las enfermeras del Harbor-UCLA Medical Center. La mujer que llevó el recién nacido al hospital se dio a conocer como la tía del bebé y dijo que la madre le había pedido que llevara al bebé al hospital en su nombre. Le entregaron a la tía un brazalete con un número que coincidía con la pulsera del bebé; esto serviría como identificación en caso de que la madre cambiara de opinión con respecto a la entrega del bebé y decidiera recuperarlo dentro del período de 14 días que permite esta ley. También le dieron a la tía un cuestionario médico, y ella dijo que la madre lo llenaría y lo enviaría de vuelta dentro del sobre con franqueo pagado que le habían dado. El personal médico examinó al bebé y se determinó que estaba saludable y a término. El bebé fue ubicado con una buena familia que ya había sido aprobada para adoptarlo por el Departamento de Servicios para Niños y Familias.

Certificate executed by the Surety.
6. The liability of the Surety under this bond and all Continuation Certificates shall not be cumulative and

E. Interjurisdictional routes (incorporated and unincorporated areas) allocation methodology

How do you verify a service address to determine if the origin falls within County unincorporated boundaries?

Service addresses are sorted and jurisdictions of origin determinations are made for each customer by:

- ☒ our office staff manually searches customers' address using mapping software or Thomas guide
☒ we enter each customer's service address into a database, then filter the data through an automated mapping software that separates unincorporated addresses from incorporated addresses
☒ other: Manager verifies address in person

How do you calculate the incorporated/unincorporated percentage allocations?

- ☒ (1) add together the aggregate disposal / recycling capacity-service volume (yards/bins, gallons/carts) for all customers with service addresses in the unincorporated and incorporated areas
 (2) multiply each jurisdiction's tonnage by standard, average weights per cubic yard/gallon.
 (3) determine the percentage each jurisdictional tonnage comprises of the total route tonnage

BOND FOR FAITHFUL PERFORMANCE
Annually Renewable Performance and Payment Bond

KNOW ALL MEN BY THESE PRESENTS: That Key Disposal, Inc.

("Principal") and International Fidelity Insurance Company ("Surety"), are held and firmly bound unto the COUNTY OF LOS ANGELES, State of California ("Obligee"), in the penal sum of Twenty-Five Thousand 00/100 (\$ 25,000.00) dollars for the payment of which sum, the Principal and Surety bind themselves, and each of their heirs, administrators, executors, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal has entered into a contract with the Obligee entitled (Title) Non Exclusive Commercial Solid Waste Collection Franchise Agreement #003074

(the "Franchise Agreement") for the performance of the terms, conditions, covenants and obligations and services set forth in the Franchise Agreement, including but not limited to providing Franchise services in bins or dumpsters and roll-off boxes in the unincorporated areas of Los Angeles County and payment of the applicable franchise fee; and payment of any liquidated damages assessed pursuant to the Franchise Agreement; and

WHEREAS, the Franchise Agreement is hereby referred to and made a part hereof as fully and to the same extent as if copied at length herein;

NOW, THEREFORE, THE CONDITION OF THE ABOVE OBLIGATION IS SUCH, that if the Principal shall well and truly perform each and every covenant and obligation in the Franchise Agreement at the time and in the manner specified in the Franchise Agreement during the term of this bond, and shall reimburse the Obligee for all loss and damage which the Obligee may sustain by reason of failure or default on the part of the Principal, then this obligation shall be void, otherwise it shall remain in full force and effect.

PROVIDED, however that this bond is subject to the following conditions and provisions:

1. This bond is for the term beginning May 9, 2012 and ending May 9, 2013.
2. In the event of default by the Principal in the performance of the Franchise Agreement during the term of this bond, the Surety shall be liable only for the loss to the Obligee due to damages as described in Section 15 of the Franchise Agreement. The Surety, after investigation, shall with reasonable promptness determine the amount for which it may be liable to the Obligee as soon as practicable after the amount is determined, and tender payments to the Obligee to secure substitute services, remedy damages incurred, and ensure satisfaction of all performance obligations as set forth in Section 15 of the Franchise Agreement and only for the purpose of enforcing such Franchise Agreement obligations as they pertain to this bond.
3. Except for a claim for compensatory damages as defined in Section 17, D.1 of the Franchise Agreement, no claim, action, suit or proceeding, except as hereinafter set forth, shall be had or maintained against the Surety on this instrument unless it be brought or instituted and process served upon the Surety within two years after the expiration of the stated terms of this bond.
4. Neither non-renewal by the Surety, nor the failure or inability of the Principal to file a replacement bond in the event of non-renewal, shall itself constitute loss by the Obligee recoverable under this bond, notwithstanding any language in the Franchise Agreement to the contrary.
5. The bond may be extended for additional one-year terms at the option of the Surety, by Continuation Certificate executed by the Surety.
6. The liability of the Surety under this bond and all Continuation Certificates shall not be cumulative and under no circumstances shall the Surety's liability exceed the penal sum stated herein.
7. No right of action shall accrue on this bond to or for the use of any person, entity or corporation other than the Obligee and this bond cannot be assigned to any other party without the written consent of the Surety.
8. Other than the Surety's right to renew this bond to extend its termination date, the Surety stipulates and agrees that any change, extension of time, alteration or addition to the terms of the Contract, including alterations in the work to be done, or increase or decrease of the material to be furnished, shall not in any way release either the Principal or Surety, and Surety hereby waives notice of any such change, extension of time, alteration or addition.

EXHIBIT H

9. In the event that suit is brought against this bond, the Surety will pay, in addition to the penal sum herein, costs and reasonable expenses and fees, including reasonable attorney's fees, as awarded and fixed by the court.
